INTRODUCTION.

THE laws of all European nations (except Great Britain) require that Masters and Mates shall undergo an examination, and possess certificates of qualification, before they are eligible to be intrusted with the charge of Merchant Vessels ; a reasonable condition, in which Shipowners and Underwriters are greatly interested.

The Lords of the Committee of the Privy Council for Trade have been pleased to promulgate regulations, dated 19th August, 1845, under which a voluntary examination may be passed, and certificates of qualification obtained ; and in furtherance of this design, the Lords of the Admiralty have announced that, from and after the 23rd of March, 1847, no Vessel shall be taken up as Transport, Convict, or Freight Ship, unless the Master and Mates have obtained the required certificates.

The regulation has been extended to Passenger Freight Ships, and to others over which The Government, The Honourable East India Company, The Royal West Indian Mail, and the British and North American Mail Companies exercise control ; and a Bill has been intro-

duced into Parliament by the Right Hon. The President of the Board of Trade, making the condition compulsory on Masters and Mates who assume their ratings *for the first time* after the 1st January, 1851.

Masters and Mates who have already served in such capacities must also possess authenticated attested certificates of the fact before their vessels can effect a clearance at the Custom House, it not being intended that such persons shall be required to undergo examination.

These regulations are called for not only by the very general expression of public opinion, that those in charge of life and property should possess the qualification necessary for so important a trust; but in order the better to enable Masters of British vessels to compete with foreigners for freights in the markets of the world, by the production of satisfactory credentials as to their competency.

In order to give publicity to the names of those who possess certificates, whether of examination — or of previous service — “The Mercantile Navy List” is established under the superintendence of the Registrar-General of Seamen, by authority of the Lords of the Committee of Privy Council for Trade; and it will be published Half-yearly, corrected up to the latest period.

The title, under its present appearance, may seem a misnomer; but it being intended to extend the design, so as to embrace all information useful, if not essential to Shipmasters, in an authentic form, a comprehensive title has been adopted in the first instance.

To the names of Master Mariners and Mates are appended such honorary rewards or testimonials as they may have obtained for services performed ; and it is requested that parties so distinguished will transmit an authenticated account of the same, and that certificated Master Mariners and Mates will notify any change of Ship as often as it occurs.

All communications to be addressed (post-paid) to the care of the publishers, Messrs. BRADBURY & EVANS, 11, Bouverie-street ; or CHARLES WILSON, late J. W. NORIE & WILSON, 157, Leadenhall-street, London.

MEMORANDUM.

Mates, when they become Masters, should be careful to set forth the number of their Register Tickets, when making the returns required under the provisions of the Merchant Seamen's Act. This will greatly facilitate the means of substantiating claims on the Fund hereafter, either on the part of themselves or widows, when certificates are lost. One of the principal objects of the Register Ticket is to give to those who have claims the ready means of proving them, by reference to the Record of their Voyages; and its value will be more appreciated when the Fund is placed on a satisfactory footing, and a substantial provision established for worn-out Mariners and their relicts. Although Master Mariners are not required by law to possess Register Tickets, they can obtain them at any Custom House, and they will find their interest promoted by insuring that a Record of their service shall be maintained, whether as Masters or Mates.

EXAMINATION OF MASTERS AND MATES IN THE MERCHANT SERVICE.

NOTICE is hereby given, that from and after the 1st day of November, 1845, the following Arrangements and Regulations for examining Masters and Mates in the Merchant Service, voluntarily offering themselves for Examination, will take effect.

By order of the Lords of the Committee of Privy Council for Trade.

J. G. S. LEFEVRE, *Sec.*

BOARD OF TRADE,
19th August, 1845.

I.—AS TO THE BOARDS OF EXAMINERS.

1. The Boards enumerated in the Schedule hereto, have voluntarily undertaken respectively to conduct the examinations hereinafter described, according to the arrangements and regulations contained in this notice, which are subject to any future regulations to be from time to time made by the Lords of the Committee of Privy Council for Trade, and published in the London, Edinburgh, and Dublin *Gazettes*.

2. Each Board of Examiners is to examine all persons who shall apply as hereinafter is mentioned for certificates of qualification as Masters or Mates of vessels, and shall grant to such of them, as upon examination shall be found to be properly qualified, certificates accordingly, of the classes following:—

Masters 1st class—2nd class.—3rd class.

Mates 1st class—2nd class.—3rd class.

3. The actual Examiners are to be members of the said enumerated Boards, or proper persons appointed or employed by the Boards respectively.

4. In every case the examination is to be carried on by at least two Examiners who have had charge of ships or vessels on over-sea voyages.

5. In the examination of the first and second classes hereinafter described, the Examiners are to be assisted by a scientific person, competently acquainted with the theory of Navigation and Nautical Astronomy.

6. Such examination is to comprise the several points, and be subject to the several conditions, hereinafter mentioned.

II.—CONDITIONS AND SUBJECTS OF EXAMINATION.

1. No person is to be examined as a Master under twenty-one years of age, nor as a Mate under nineteen years, nor who has not previously served at sea for not less than six years, as regards an examination for Master,* and for not less than four years as regards that for Mate.

2. All candidates for examination must produce sufficient evidence

* One year of which must have been in the situation of chief, or two years in that of second Mate.—*See London Gazette, May 1, 1849.*

of their ages, and certificates of service and *sobriety*, general good character and conduct; and *particular care is to be taken by the Examiners to satisfy themselves as to the habitual sobriety of the party*, previous to granting him a certificate of fitness to take charge and command of, or serve as Master or Mate, on board any vessel.

3. They must be able to write a legible hand, and must understand the first five rules of arithmetic.

4. They will be examined as to their knowledge of seamanship, of rigging vessels, stowing holds, &c.; in addition to which, those to be admitted into the lowest class, or class 3rd, must be able to correct the courses steered by compass for variation, leeway, &c.; to work what is termed a day's work; to prick off the vessel's place on a chart, either by the calculated latitude and longitude, or by the bearings of the land by compass.

5. They must show that they understand the use of the quadrant or sextant, and can observe the sun's meridian altitude, and therefrom determine the latitude; and are able to work the tides by the age of the moon, from the known time of high water at the full and change.

6. To be entitled to second-class certificates, candidates must, in addition to all the foregoing qualifications, be able to ascertain the latitude by double altitudes of the sun, and by meridian altitudes of the moon, or of those bright planets or stars the places of which are given in the "Nautical Almanac." They must understand the care and management of chronometers, and the mode of working out and ascertaining the longitude therefrom; and they must be able to ascertain the variations of the compass by the azimuth of the sun, as well as by the amplitude.

7. To be entitled to a first-class certificate, candidates will, in addition to all the foregoing qualifications, undergo a more strict examination as to their proficiency in navigation and also in seamanship, under the many difficult circumstances and trying situations to which vessels may be exposed; such as having to erect and rig juremasts, when suddenly requisite, or to form rafts in case of being stranded, &c.; and in such other cases as call for a higher order of resources. They must have a competent acquaintance with plane trigonometry, a general knowledge of nautical astronomy, including the determination of the latitude by reduction to the meridian, and of the longitude by lunar observations.

8. They must be acquainted with the mode of ascertaining and applying the deviation of the compass, produced by the local attraction, which is of so much importance in all vessels, and particularly in those built of iron or having iron on board in any quantity. They must be practically acquainted with the mode of comparing two or more chronometers, and of rating them by equal altitudes.

9. They must understand the construction of Mercator Charts, so as to be able to correct any errors they may detect in those they possess, as well as to insert with precision any new shoals or islands they may discover; and must be well versed in the mode of laying down the required course on the chart.

10. They must also possess a knowledge of mercantile book-keeping, at least by single entry.

11. In the event of any candidate proving himself to have higher attainments than the foregoing, such as being well versed in great circle sailing, spherical trigonometry, marine surveying, and a more extensive knowledge of astronomy, it is to be noted in his certificate, and is to entitle him to have "Class 1, extra," thereon.

12. The examination of Mates, who are to be considered as the substitutes for Masters in certain contingencies, is, on that account, to embrace the same branches with the Master's examination in each class respectively, having regard, however, in its details, to the denomination of certificate for which each person may be an applicant.

III.—TIMES OF EXAMINATION.

Every candidate desirous of being examined, shall transmit to the Clerk of the Board by whom he is to be examined, an application in the form hereinafter described, and thereupon such Board shall appoint a proper time for such examination, not exceeding four clear days from the receipt of any such application.

IV.—FORM OF APPLICATION.

Every application for examination should be made in the following form :—

"To the Board of Examiners of Masters and Mates of vessels at the Port of _____

"I, A. B., of _____ being desirous of obtaining a certificate of qualification as a _____, do hereby signify my request to undergo the necessary examination for that purpose; and I herewith deliver my testimonials of character and service, and evidence of age, as per the following list; viz.—1, 2, 3, &c.

"And I hereby declare that I will accept the said certificate of qualification, subject to the withdrawal thereof by any Board of Examiners under such regulations as are now or may from time to time be made by the Lords of the Committee of Privy Council for Trade."

V.—FEES FOR EXAMINATION.

1. In order to provide for the remuneration of the Examiner, or for the incidental expenses of the proposed arrangement, the following fees shall be paid by the candidates examined :—For a Master's certificate, £2 : for a Mate's certificate, £1.

2. One-half of the said fees respectively shall be paid by the candidate at the time of the transmission of his application; and the remainder, by candidates deemed entitled to certificates, prior to the issue thereof.

3. In case a candidate fails to obtain a certificate, the sum that he has paid will not be returned to him.

VI.—APPLICATION OF FEES.

1. The fees received by each Board of Examiners shall, after deducting one-fourth part thereof, be applied by them in the remunera-

tion of the Examiners, or otherwise for the purposes of the examination, as such Board in its discretion shall think fit.

2. The one-fourth thus deducted shall be held by such Board to be annually applied towards the expenses of such inquiries as are hereinafter mentioned, or in defraying all other expenses incidental to these arrangements, as the Lords of the Committee of Privy Council for Trade shall direct.

3. Each Board of Examiners shall transmit to the Lords of the Committee of Privy Council for Trade, in the months of July and January, an account of the fees which they have received during the six calendar months preceding, and of the disbursements paid thereout.

VII.—CERTIFICATES.

1. The following is to be the form of certificate :—

“By the Board of Examiners of Masters and Mates of vessels at the Port of _____

“We do hereby certify that, pursuant to the request of A. B., we have examined into the competency of the said A. B., and have found him duly qualified to fulfil the duties of _____, and to be entitled to this _____ class certificate.”

2. Such certificate shall be signed by the actual Examiners, and in all cases be countersigned by the Secretary or Clerk of the Board of Examiners.

3. Within forty-eight hours after the issue of any such certificate, an authenticated copy shall be transmitted by the Board of Examiners granting the same, to the Lords of the Committee of Privy Council for Trade.

VIII.—WITHDRAWAL OF CERTIFICATES.

1. In case any vessel, the Master or Mate of which has a certificate, shall be lost, burnt, stranded, or otherwise damaged, or in case any Master or Mate having a certificate shall be charged with having been drunk at sea, or with having been drunk on board at different times in harbour, the Board of Examiners nearest the port to which the vessel belongs, or nearest to the place on the coast of the United Kingdom where the vessel to which such Master or Mate belongs, shall arrive, or nearest to where they may be when the complaint is brought forward, may, if it shall think fit, upon receiving any information or complaint of the event or occurrence, inquire into the same, and if it shall appear to the Board of Examiners undertaking such inquiry, that such loss, burning, stranding, or damage, &c., of the vessel has been occasioned by the misconduct or default of such Master or Mate, or that such Master or Mate has been drunk whilst on duty, such Board of Examiners may, if it shall think fit, withdraw the certificate of such Master or Mate, and declare that the same is withdrawn accordingly.

2. Within forty-eight hours after the resolution of any Board declaring the withdrawal of any such certificate, an authenticated copy of such resolution, together with a full statement of the circumstances under which their resolution of withdrawal has been founded, is to be transmitted to the Lords of the Committee of Privy Council for Trade.

3. Any Master or Mate whose certificate has thus been withdrawn may, within seven days after such withdrawal, after giving notice to the Board of Examiners by whom the same shall have been declared to be withdrawn, and also to the Lords of the Committee of Privy Council for Trade, refer the matter to the Lords of the said Committee for their decision, which shall be final.

4. Pending such reference, and until such decision, the publication of the withdrawal of the certificate shall be suspended.

5. Every Board of Examiners, before proceeding to make any such inquiries as hereinbefore are mentioned, shall give seven days' notice of their intention so to do to the Lords of the Committee of Privy Council for Trade; and in case more than one such Board shall give such notice, the Lords of the said Committee shall decide by which Board the inquiry shall be made.

IX.—REGISTRATION AND PUBLICATION OF CERTIFICATES.

1. A registry of certificates and of withdrawal of certificates will be kept, under the superintendence of the Lords of the Committee of Privy Council for Trade, in some convenient place in London, and will be open to inspection at reasonable hours, on payment of a fee of 6d. for each inspection.

2. The Lords of the said Committee will, from time to time, cause the names of the persons who have obtained certificates in their respective classes, and likewise the names and classes of the persons whose certificates shall have been declared to be withdrawn, to be published in the *London Gazette*; and will be transmitted, as soon as conveniently may be, to the Committee of Lloyd's Register.

3. This publication will take place, so far as conveniently may be, within fourteen days after the certificates or declarations of withdrawal shall have been sent to the Lords of the said Committee.

4. The Committee for managing the affairs of Lloyd's Register of British and Foreign Shipping have undertaken to denote in their lists such of the Masters of vessels therein named as shall have obtained certificates, by affixing the figures, 3, 2, 1, 1 ex., according to the class of certificate. These marks will be withdrawn on the withdrawal of the certificate.

HONORARY REWARDS.

- (1) Pp. 34, 35. Received a Medal from the Hon. East India Company for his exertions in the battles of Meanee and Hydrabad, whilst in command of the Company's steam-vessel, "*Nimrod*," in 1843.
- (2) P. 37. A Silver Snuff-box was presented to him by the passengers of the barque, "*Thetis*," in October, 1845, "as a token of their regard and remembrance of his kind attention during the voyage to Calcutta."
- (3) P. 37. On landing the foreign emigrants at New York, from the "*Katherine Stewart Forbes*," in 1847, they presented to him a Piece of Plate, "as a token of their respect and esteem, and for his attention to them during the voyage from Antwerp."
- (4) P. 62. A handsome Silver Cup was presented to him for the judicious management displayed in rescuing 76 passengers from the "*King William*," which was wrecked about ten miles from Newcastle, New South Wales, and bears the following inscription:—

"Presented by the Cabin Passengers of "*King William*" Steamer to George William Jackson, Esq., Harbour Master at Newcastle, as a mark of their gratitude for the prompt and efficient assistance rendered them during the wreck of that vessel on the morning of the 2nd July, 1839."

- (5) P. 76. The Underwriters of Lloyd's presented him with a Gratuity of £100 for his meritorious conduct in saving the lives of the crew and passengers of the "*Nautilus*" steamer, which caught fire, July, 1847, on her passage from Alexandria to Liverpool.
- (6) P. 86. On his return to England after the wreck of the hired transport vessel, "*Briton*," he received the following communication:—

"Admiralty, 26th Oct. 1846.

"Sir,—I am commanded by my Lords Commissioners of the Admiralty to express to you the sense which their lordships entertain of your exertions when the late transport, "*Briton*," was wrecked on the Andaman island; and I am to request your acceptance of a hundred guineas, as a mark of their approbation of your services.

"I am, Sir, your most obedient servant,
"Mr. Alexr. Hall.

"N. SHAW."

- (7) P. 89. A handsome silver snuff-box was presented to him on March 9th, 1840, at Sydney, by his passengers to that port in the barque "*Cumberland*."

BOARD OF TRADE,
 29th December, 1849.

CANCELLED REGISTER TICKETS.

THE Cancelled Tickets on the List consist of all those numbers outstanding, and ascertained not to be in the possession of the persons to whom they were issued. The list includes all Tickets lost by wreck, fire, or other unavoidable accidents, as well as those lost through negligence, and not returned to the Register Office.

From these causes, the number of Cancelled Tickets accumulates greatly between the half-yearly corrections, published in the *London Gazette* and exhibited at the Custom Houses of the United Kingdom. In order to facilitate reference, the numbers are placed *seriatim* on the List, so that it can be readily ascertained if any cancelled number is there.

For example,—Supposing a seaman to present his Register Ticket, No. 6,272, to the master of a ship when signing articles. By looking over the List he will find it between 6,010 and 6,331, and should immediately impound the Ticket, and send it to the Custom House; for he is subject to a penalty for employing a man with a cancelled Ticket, and the seaman forfeits all his wages when working with one; besides being liable to punishment for having in his possession and not rendering up a Ticket that has not been legally issued to him.

Again, for example,—Suppose a Ticket bearing No. 9,220 is presented. On reference to the Cancelled List it should appear between the numbers 9,204 and 9,234, but not being there, it is not a cancelled Ticket.

LIST OF CANCELLED MARINERS' REGISTER TICKETS,

*The distinguishing Numbers of which are hereby published under the Provisions
of the 7th and 8th of Victoria, cap. 112.*

MASTERS OF VESSELS ARE CAUTIONED

Not to employ any person or persons presenting Mariners' Register Tickets bearing any of the Numbers herein set forth; and to render up the Register Tickets of Deserters, and others who do not proceed to sea in their vessels, to the Collectors and Comptrollers of Customs, before quitting the port of departure. And all persons becoming possessed of any such Tickets, or of any Ticket other than that legally issued to or deposited with them, are required to transmit the same forthwith to the Registrar of Seamen, Custom House, London, under a

PENALTY OF £20.

*Any Person working with a Cancelled Ticket, shall forfeit to the Owner of the
Vessel all his Wages.*

CAUTION.—The Masters of Vessels coming from the Westward and bound to the Rivers Thames or Medway, are subject to heavy penalties if they do not hoist the usual signal for a Pilot on arriving off Dungeness, and keep it displayed until the Ship has passed the South Buoy of the Brake, unless in the mean time a duly qualified Cinque-Ports Pilot should have come on board. Masters are particularly warned to keep their Jacks flying, although they may have taken a boatman on board, and engaged his boat and crew to procure a Pilot from the shore. The Pilot Cutters show a large Green Light during the night, and display a Flare-up every 15 minutes.

N.B. There are now no licensed Boatmen, their Licences have been long since revoked, and the Act authorising their being granted repealed. Masters should avoid being imposed upon by any persons pretending to have Licences.

Masters should on no account pay the Shipping Money to the Boat's Crew, but in every case to the Pilot only, *or they will have to pay it twice.* As it has been decided, in several cases, by the Judge of the County Court at Dover and Deal, that, although the Boat's Crew may have received the Shipping Money or more from the Captain, it is still due to the Pilot, and from him to the Boatmen.

BOARD OF TRADE,

20th December, 1849.

A LIST OF STEAM VESSELS.

THAT HAVE COMPLIED WITH THE PROVISIONS OF THE 14TH SECTION OF THE STEAM NAVIGATION ACT, AND HAVE OBTAINED CERTIFICATES OF REGISTRY FROM THE BOARD OF TRADE, FOR THE SIX MONTHS ENDING 30TH APRIL, 1850, PREVIOUS TO WHICH DATE ALL CERTIFICATES MUST BE RENEWED.

ALL Steam Vessels, plying with Passengers, either on Sea or Coasting Voyages, or on the Rivers or Inland Waters of the United Kingdom, fall within the Provisions of the 14th Section of the Act 9-10 Vict., c. 100, excepting only such as are specially exempted by the latter part of *that* Section. Steam Tugs are exempt so long as they are used solely for Towing purposes and do not carry Passengers.

The Declarations are required to be sent in to the Board of Trade on or before the 30th of April and 31st of October, subjecting the owners to a Penalty of Ten Shillings for every day's delay beyond those dates, unless satisfactorily accounted for.

Owners of Steam Vessels are bound, under a Penalty of 10*l.*, to *cause a true Copy of the Certificate they have last received from the Board of Trade* to be put up in some CONSPICUOUS part of the Vessel, and *visible to Passengers*.

The Board of Trade has power to limit the Number of Passengers to be carried by Steam Vessels.

Should any Steamer meet with an accident, causing damage to her hull or machinery, or causing loss of life or property, the Master is bound, within a reasonable time, to report the accident and cause thereof to the Board of Trade, under a Penalty of 50*l.* for neglecting so to do.

A document was also issued by the Lords of the Privy Council on 7th August, 1849, enforcing a New Code of Regulations in relation to the *Carriage of Passengers between Ireland and the British Shores*, and contains the following clauses :—

“1. The number of deck passengers to be carried by a paddle steamer, having no cargo on deck, shall be one passenger to every ton of the builder's tonnage.

“2. The number to be carried by a paddle steamer, having cargo on deck, but none of it stowed abaft the paddle-shaft, shall be one passenger to every registered ton.

“3. The number to be carried when cargo (not live animals or poultry) is stowed abaft the paddle-shaft, shall be three passengers to every two square yards of clear space abaft the paddle-shaft.

“4. The number to be carried where live animals or poultry are stowed abaft the paddle-shaft, shall be fixed with reference to the arrangement of the vessel and cargo, so as to provide, as nearly as

possible, two square yards for every three passengers, in a part of the vessel separate from the cattle and live stock.

"5. Screw steamers, in which the deck passengers are allowed to go below, and are accommodated on space on the lower deck for one-half their numbers, or on that on which the bulwarks are raised, and a spare deck constructed so as to afford protection to the passengers on deck, shall be licensed to carry the same number of passengers in each case as paddle steamers.

"6. Screw steamers in which these provisions are not made, shall be licensed to carry only one passenger to every four tons of the registered tonnage.

"7. The proportion of passengers to be carried in the months of November, December, January, February, and March, shall be two-thirds the number allowed in the other months."

NOTE.—The number of passengers indicated in the following Table, as regards Irish Steamers, represents the number to be carried during the Summer Months, *i. e.*, from *April to October*, inclusive. One-third of the Number must be deducted for the Winter Months from November to March inclusive.

LIGHTS FOR STEAMERS.

ADMIRALTY NOTICE, *June 29th*, 1848.

By the Commissioners for executing the Office of Lord High Admiral of the United Kingdom of Great Britain and Ireland, &c.

Whereas under and by virtue of the Act of Parliament, passed in the 10th year of the reign of her present Majesty, intituled "An Act for the Regulation of Steam Navigation," &c., we hereby require, in pursuance of the said Act, that lights shall be exhibited by all British steam-vessels, between sun-set and sunrise, of such description and in such manner as hereinafter mentioned, that is to say—

When under weigh.

1. Bright white light at the foremast head.
2. Green light on the starboard side.
3. Red light on the port side.

When at anchor.

A common bright light.*

The following conditions to be observed, viz. :—

1. The mast head light to be visible at a distance of at least five miles in a clear dark night, and the lantern to be so constructed as to show a uniform and unbroken light over an arc of the horizon of 20 points of the compass—viz., from right ahead to two points abaft the beam on each side of the ship.

2. The coloured side lights to be visible at a distance of at least two miles in a clear dark night, and the lanterns to be so constructed as to show a uniform and unbroken light over an arc of the horizon of 10 points of the compass—viz., from right ahead to two points abaft the beam on their respective sides.

3. The side lights to be moreover fitted with inboard screens, of at least three feet long, to prevent them from being seen across the bow. The screens to be placed in a fore and aft line with the inner edge of the side lights.

* 4. The lantern used when at anchor, to be so constructed as to show a good light all round the horizon.

It is understood to be the intention of the Lords of the Admiralty to issue regulations in accordance with the foregoing announcement, and to have them published in the *London Gazette*, so that they may be in force from the 21st day of July next.

* Diagrams illustrative of the above plan, and instructions as to the proper mode of fitting the lights, will be furnished to parties applying for them.

NOTICES TO MARINERS.

ST. NICHOLAS GATWAY, YARMOUTH.

TRINITY-HOUSE, LONDON,
10th January, 1849.

It having been ascertained that two patches have grown up in the track of Shipping passing through St. Nicholas Gatway, on which there are no more than $2\frac{1}{4}$ Fathoms at Low Water Spring Tides—and there being reason to apprehend that the Water thereon will gradually become less,—

Notice thereof is hereby Given,

and Masters of Vessels, Pilots, and others, having charge of Vessels drawing more than 12 Feet water, are hereby Cautioned *not to attempt* the Navigation through the said Gatway, but invariably to *use instead* thereof, the wide and Deep-Water Channel between the Scroby and St. Nicholas or Kettle-bottom Sands, commonly called “Hewett’s Channel.”

By Order,
J. HERBERT, *Secretary.*

ADDITIONAL HARBOUR LIGHTS AT OSTENDE.

HYDROGRAPHIC OFFICE,
February 3rd, 1849.

Notice was given from this office on the 27th of December, that the Belgian Government was about to establish additional Harbour Lights at the Entrance of the Port of Ostende, and it now appears by a recent communication that those Lights were first shown on the 21st of January.

Seamen will therefore observe ;—

1. That the Green Light on the Western Pier is intended merely to indicate the position of the Pier-head.
2. That the Entrance of the Harbour must not be attempted, unless the Red Light of the Eastern Pier is also shown.
3. That when both of these Lights are shown, they signify that the depth of water, between the Pier-heads, is more than $8\frac{1}{2}$ and less than $14\frac{1}{2}$ English feet.

4. That as soon as there are $14\frac{1}{2}$ feet of water, between the Pier-heads, the Red Light will be extinguished, and the two usual tide Lights will be shown, one of which stands on the end of the Sea-wall, and the other on the Sand-hills, near Fort Imperial.

5. That these tide Lights will in their turn be extinguished when the tide has again fallen to $14\frac{1}{2}$ feet water; at which time the Red Light of the Eastern Pier will be re-lighted, and kept burning till the water falls to $8\frac{1}{2}$ feet, when it also will be extinguished.

Note.—A Black Buoy, marked with the white letters P. O., has been lately placed in 16 feet, at low water, on the W. end of the Baerland (or Strooms) Bank off NIEUPORT, with the following bearings: Furnes Tower, S.S.W. $\frac{1}{2}$ W.—Nieuport Tower, S. by E.—Middelkerke Steeple, S. E. by E. $\frac{1}{2}$ E.—Ostend Light, E. by S.—Bearings by Compass.

BUOY ON THE LONGSAND HEAD AND KENTISH KNOCK.

TRINITY-HOUSE, LONDON,
19th March, 1849.

LONGSAND HEAD.

Notice is hereby Given,

That a Nun Buoy of large size, painted *Black*, and surmounted by a Staff, bearing a St. Andrew's Cross, with the words "Long Sand" marked thereon, has been placed in $6\frac{1}{2}$ Fathoms at Low Water Spring Tides, and with the following Mark and Compass Bearings, viz.:

The Naze Tower midway between Walton Hall and the high Tree	N. W. $\frac{1}{2}$ N.
Sunk Light Vessel	N. W. by W. $\frac{1}{4}$ W.
Kentish Knock Light Vessel	South.

Note.—The Black Cann Buoy previously at this Station, and from which the above mentioned Nun Buoy bears E. $\frac{1}{4}$ S. distant two cables' lengths, remains for the present, but will be taken away after a short time.

KENTISH KNOCK.

Notice is also Given,

That off the South end of the Kentish Knock a large Nun Buoy, coloured *Red*, marked K. K. in large Black Letters, and surmounted by a Staff and Globe, has been placed in 12 Fathoms at Low Water Spring Tides, with the following Compass Bearings, viz.:—

The Kentish Knock Light Vessel	. . .	N. E. by E.
		Distant 7 Miles.
The Tongue Light Vessel	. . .	W. by S.;
		Distant 10 $\frac{1}{2}$ Miles.
The North Foreland Light House, with Broad-		
stairs Mill a Ship's length to the Westward		
of it	S. W. $\frac{1}{2}$ S.

Note.—A small Nun Boy painted Red, and having K. K. on it in White Letters, has also been laid in 7 Fathoms Water, $\frac{3}{4}$ of a Mile N. W. by N. from the before-named large Buoy.

By Order,

J. HERBERT, *Secretary.*

HARBOUR OF REFUGE, DOVER.

TRINITY-HOUSE, LONDON,

27th April, 1849.

The projection from Cheeseman's Head, of a Pier in the Line of the West Arm of the proposed Harbour of Refuge off Dover, being now in course of extension, it is considered necessary that the outer or Sea End thereof should be marked during the Night time;—and the sanction of this Corporation having been obtained to the exhibition of a Light thereon for that purpose,—

Notice is hereby Given,

That on the Evening of the 1st June next, a Light, coloured *Blue*, will be shown on the said End or Extremity, and thenceforth continued nightly from Sunset to Sunrise.

By Order,

J. HERBERT, *Secretary.*

MAPLIN LIGHT HOUSE.

TRINITY-HOUSE, LONDON,

8th May, 1849.

Notice is hereby Given,

That for the purpose of more distinctly indicating in the Night time, the Channel between the Girdler Light Vessel and the Shivering Sand Buoy, a *White Light* is now shown at the Maplin Light House, ranging over 8° of the Circle,—striking the Girdler Light in the direction of S. $\frac{1}{2}$ W.—and the Shivering Sand Buoy S. by W. $\frac{1}{4}$ W. by compass.

BUNT HEAD, IN THE GULL STREAM.

The Bunt Head having extended itself to the South Westward, the Buoy at that station has been removed about 2 cables' lengths in that direction, and now lies in $4\frac{1}{2}$ fathoms at Low Water Spring Tides, with the following Marks and Compass Bearings, viz. :—

Christchurch, one-third on the South End of the	
Royal Terrace at Ramsgate	N. $\frac{1}{2}$ E.
Northborne Mill, on with the centre of Sandown	
Castle	W. $\frac{3}{4}$ N.
Gull Light Vessel	N. N. E. $\frac{3}{4}$ E.
South Brake Buoy	W. N. W.
South Sand Head Light Vessel	S. S. W. $\frac{1}{4}$ W.

By Order,

J. HERBERT, *Secretary.*

ST. NICHOLAS GATWAY, OFF YARMOUTH.

TRINITY-HOUSE, LONDON,

28th May, 1849.

Notice is hereby Given,

That with the object of covering a shoal patch of ground which has grown up in St. Nicholas Gatway, having only $2\frac{1}{4}$ Fathoms on it at Low Water Spring Tides, the *N. W. Corton Buoy* has been moved about $1\frac{1}{2}$ Cable's length to the N. $\frac{1}{2}$ E., and now lies in 3 Fathoms at Low Water, with the following Marks and Compass Bearings, viz. :—

Nelson's Monument just touching the North	
Side of the Grove of Trees	N. W. by N. $\frac{1}{2}$ N.
The Spire of the Old Church at Yarmouth in	
line with the fifth Mill from the Northward

By Order,

J. HERBERT, *Secretary*.

NAVIGATION OFF YARMOUTH.

TRINITY-HOUSE, LONDON,

2nd June, 1849.

The decrease in the depth of water in St. Nicholas Gateway, as notified in the Advertisement from this House, dated 10th January of the present year, having rendered it advisable that the position of the St. Nicholas Light Vessel should be changed, and that some alterations should take place in the Buoyage of the Sands in that vicinity,—

Notice is hereby Given,

That on or shortly before the 1st August next, the following changes will take place, viz. :—

The *St. Nicholas Light Vessel* will be taken away from her present Station and moored at the *North End* of St. Nicholas Sand.

The *North St. Nicholas Buoy* will be taken away and discontinued, and a Beacon put upon the *South West Scroby Buoy*. At the *South End of the Scroby*, a Buoy of large dimensions will be placed : and

The large Buoy at the *South Cross Sand* will be moved to the *North End* of that Sand.

By Order,

J. HERBERT, *Secretary*.

LIGHTS ON THE COAST OF FRANCE.

HYDROGRAPHIC OFFICE, ADMIRALTY,

25th June, 1849.

The French Government has given notice, that Three new Lights will be established on the Coast of France, on the 1st of next July, namely: one at the entrance of the Port of Boulogne, and two others on the western coast.

1. *Boulogne Fixed Red Light.*

On the N. E. jetty head at the entrance of the Port of Boulogne, a Fixed and permanent Red Light, 46 feet high, will replace the present Tide Light, and be visible at the distance of four miles.

NOTE.—The two vertical Lights on the S. W. jetty head will retain their character of Tide Lights ; the upper Light being shown as soon as there are 9 feet in the shoalest part of the Channel, and the second Light at the moment of high water. Both of these Tide Lights will be extinguished when the depth of the Channel is reduced to 9 feet.

2. *Kermorvan Fixed Light.*

A Fixed Light on Kermorvan Point on the northern side of the entrance to Port Conquet, in lat. $48^{\circ} 21' 43''$ N. and long. $4^{\circ} 46' 13''$ W. of Greenwich. Being 72 feet above the level of the sea, it may be seen at the distance of about 15 miles, and if kept in one with the light on St. Mathieu Point it will lead through the Channel du Four.

3. *Toulinguet Fixed Red Light.*

A Fixed Red Light on Toulinguet Point to the westward of Camaret Bay, in latitude $48^{\circ} 16' 50''$ N. and longitude $4^{\circ} 37' 40''$ W. of Greenwich. The Light is 161 feet above the level of the sea, and is visible about four miles.

NAVIGATION OFF YARMOUTH.

TRINITY-HOUSE, LONDON,
28th July, 1849.

Notice is hereby Given,

That in accordance with the intention expressed in the Advertisement from this House, dated 2nd ultimo: the undermentioned alterations have been carried into effect, viz :

The St. Nicholas Light Vessel has been taken away from her former Station, and now lies in 10 Fathoms at Low Water Spring Tides, at the *North End* of St. Nicholas Sand, with the following Marks and Compass Bearings, viz.—

St. Peter's Church, in line with the Royal	
Hotel	N. W. $\frac{1}{4}$ N.
North Mill at Gorleston, its width to the	
Northward of Nelson's Monument	W. N. W.
Gorleston South Mill, in line with the	
South End of the Harbour Master's	
House	W. $\frac{1}{4}$ S.

The North St. Nicholas Buoy has been taken away and will be discontinued, and a *Beacon* has been placed upon the *South West Scroby Buoy*.

NOTE.—The *intentions* also notified in the said advertisement to place a Buoy of large dimensions at the South end of the Scroby, and to move the large Buoy at the South Cross Sand to the *North* end of that Sand, have not yet been carried into effect.

By Order,
J. HERBERT, *Secretary*.

MARGATE SAND AND THE GULL STREAM.

TRINITY-HOUSE, LONDON,
7th August, 1849.

MARGATE SAND.

Notice is hereby Given,

That in order more distinctly to mark the N. E. Spit of Margate Sand, the Black and White Chequered Can Buoy, now at that station, will be taken away, and a *Nun Buoy* of large size and of the same Colours, placed instead thereof.

GULL STREAM.

The "Bunt Head" having extended itself so far in a South Westerly direction as to render the Black and White Chequered Buoy at the Fork no longer necessary ;—

Notice is hereby Given,

That the said Buoy of the *Fork* will be *taken away* and *discontinued*.

The alterations above mentioned will both be carried into effect on or about the 15th September next,

By Order,
J. HERBERT, *Secretary*.

NAVIGATION OFF YARMOUTH.

TRINITY-HOUSE, LONDON,
8th August, 1849.

Referring to the Advertisement from this House, dated 28th ult.—

Notice is hereby Given,

That the following Alterations have been carried into effect, viz.—

SOUTH END OF THE SCROBY SAND.

The Can Buoy (Black) at this Station has been taken away, and a large Black Nun Buoy, surmounted by a Staff and Ball, placed instead thereof.

CROSS SAND.

A Black Can Buoy of ordinary size has been placed at the South Cross Sand, and the large Nun Buoy (Red) with a Staff and Ball, previously at that Station, moved to the North end of that Sand.

By Order,
J. HERBERT, *Secretary*.

LIGHTS IN SEA REACH, RIVER THAMES.

TRINITY-HOUSE, LONDON,
9th October, 1849.

Notice is hereby Given,

That in accordance with the intention expressed in the Advertisement from this House, dated 8th August last, Two Lights are now exhibited nightly on the North Side of the Navigable Channel of Sea Reach, that is to say,—

One off the Chapman Head, near to the spot on which the Beacon stands, and
One at Mucking Flat.

Mariners are to Observe,

That the Light off the Chapman Head is exhibited on board a Vessel, pending the erection of a permanent structure, and is of the usual or natural Colour of a Floating Light—and

That the Light at the Mucking, which is shown for the present from a temporary erection close to the Land Side of the Sea Wall, and bears from the Westernmost Beacon of the Blyth Sand, about N. $\frac{1}{2}$ W., burns at 25 feet 6 inches, above the Level of High Water Spring Tides; this Light is also of the natural colour, until it strikes the Spit of the Ovens Shoal, a short distance outside the 9 feet mark of Low Water Spring Tides, and on the bearing of S. W. by W. nearly, to the Westward of which the colour of the Light is Red.

NOTE.—A Black Beacon Buoy of large size will be forthwith placed on the Spit of the Ovens Shoal, respecting which farther particulars will be published in a few days.

By Order,

J. HERBERT, *Secretary.*

EXAMINATION OF MASTERS AND MATES IN THE MERCHANT SERVICE.

GENERAL REGISTER AND RECORD OFFICE OF SEAMEN,
2, Hammet-street, Tower Hill, June, 1849.

MR. EVERARD HOME COLEMAN

Begs to inform the Masters and Mates in the Merchant Service, that by an Admiralty Order dated 23rd March, 1847, the Masters and Chief Mates of all Transports, Convict Ships, and Freight Ships with Troops, taken up in future by the Government, will be required to pass the Examination under the Regulations issued by order of the Lords of the Committee of Privy Council, and published in the "*London Gazette*" of the 19th August, 1845; and also to refer them to the further minute of their Lordships issued in December, 1847, by which it was directed that on tendering for Government stores, &c., preference should be given to those vessels the Masters and Mates of which had already obtained their Certificates of competency.

Mr. C. having received Certificates of Proficiency in Navigation and Nautical Astronomy from the Trinity House, Captain Lynn, late Examiner of the Honourable East India Company's Maritime Officers, Rev. W. Webster, A.M., Head Mathematical Master to Christ's Hospital, and from his father, Mr. George Coleman, F.R.A.S., who for thirty-five years has been the Naval Instructor at Messrs. Norie and Co.'s Navigation Warehouse, 157, Leadenhall Street, has devoted from 6 to 10 P.M. for the purpose of qualifying Candidates for the various Classes of Certificates; for the prior examination of those persons who intend offering themselves for the Examination, and for the instruction of those parties who may be engaged during the day; and by continued exertions to secure the progress of the pupil and efficiency for his profession, will endeavour to merit a continuance of the support received during the last five years from the Merchants, Shipowners, and Officers of the Merchant Service, who have honoured him with their patronage.

INTRODUCTION.

THE laws of all European nations (except Great Britain) require that Masters and Mates shall undergo an examination, and possess certificates of qualification, before they are eligible to be intrusted with the charge of Merchant Vessels ; a reasonable condition, in which Shipowners and Underwriters are greatly interested.

The Lords of the Committee of the Privy Council for Trade have been pleased to promulgate regulations, dated 19th August, 1845, under which a voluntary examination may be passed, and certificates of qualification obtained ; and in furtherance of this design, the Lords of the Admiralty have announced that, from and after the 23rd of March, 1847, no Vessel shall be taken up as Transport, Convict, or Freight Ship, unless the Master and Mates have obtained the required certificates.

The regulation has been extended to Passenger Freight Ships, and to others over which The Government, The Honourable East India Company, The Royal West Indian Mail, and the British and North American Mail Companies exercise control ; and a Bill has been intro-

duced into Parliament by the Right Hon. The President of the Board of Trade, making the condition compulsory on Masters and Mates who assume their ratings *for the first time* after the 1st January, 1851.

Masters and Mates who have already served in such capacities must also possess authenticated attested certificates of the fact before their vessels can effect a clearance at the Custom House, it not being intended that such persons shall be required to undergo examination.

These regulations are called for not only by the very general expression of public opinion, that those in charge of life and property should possess the qualification necessary for so important a trust ; but in order the better to enable Masters of British vessels to compete with foreigners for freights in the markets of the world, by the production of satisfactory credentials as to their competency.

In order to give publicity to the names of those who possess certificates, whether of examination — or of previous service — “The Mercantile Navy List” is established under the superintendence of the Registrar-General of Seamen, by authority of the Lords of the Committee of Privy Council for Trade ; and it will be published Half-yearly, corrected up to the latest period.

The title, under its present appearance, may seem a misnomer ; but it being intended to extend the design, so as to embrace all information useful, if not essential to Shipmasters, in an authentic form, a comprehensive title has been adopted in the first instance.

To the names of Master Mariners and Mates are appended such honorary rewards or testimonials as they may have obtained for services performed ; and it is requested that parties so distinguished will transmit an authenticated account of the same, and that certificated Master Mariners and Mates will notify any change of Ship as often as it occurs.

All communications to be addressed (post-paid) to the care of the publishers, Messrs. BRADBURY & EVANS, 11, Bouverie-street ; or CHARLES WILSON, late J. W. NORIE & WILSON, 157, Leadenhall-street, London.

MEMORANDUM.

Mates, when they become Masters, should be careful to set forth the number of their Register Tickets, when making the returns required under the provisions of the Merchant Seamen's Act. This will greatly facilitate the means of substantiating claims on the Fund hereafter, either on the part of themselves or widows, when certificates are lost. One of the principal objects of the Register Ticket is to give to those who have claims the ready means of proving them, by reference to the Record of their Voyages; and its value will be more appreciated when the Fund is placed on a satisfactory footing, and a substantial provision established for worn-out Mariners and their relicts. Although Master Mariners are not required by law to possess Register Tickets, they can obtain them at any Custom House, and they will find their interest promoted by insuring that a Record of their service shall be maintained, whether as Masters or Mates.

EXAMINATION OF MASTERS AND MATES IN THE MERCHANT SERVICE.

NOTICE is hereby given, that from and after the 1st day of November, 1845, the following Arrangements and Regulations for examining Masters and Mates in the Merchant Service, voluntarily offering themselves for Examination, will take effect.

By order of the Lords of the Committee of Privy Council for Trade.

J. G. S. LEFEVRE, Sec.

BOARD OF TRADE,
19th August, 1845.

I.—AS TO THE BOARDS OF EXAMINERS.

1. The Boards enumerated in the Schedule hereto, have voluntarily undertaken respectively to conduct the examinations hereinafter described, according to the arrangements and regulations contained in this notice, which are subject to any future regulations to be from time to time made by the Lords of the Committee of Privy Council for Trade, and published in the London, Edinburgh, and Dublin *Gazettes*.

2. Each Board of Examiners is to examine all persons who shall apply as hereinafter is mentioned for certificates of qualification as Masters or Mates of vessels, and shall grant to such of them, as upon examination shall be found to be properly qualified, certificates accordingly, of the classes following :—

Masters 1st class—2nd class.—3rd class.

Mates 1st class—2nd class.—3rd class.

3. The actual Examiners are to be members of the said enumerated Boards, or proper persons appointed or employed by the Boards respectively.

4. In every case the examination is to be carried on by at least two Examiners who have had charge of ships or vessels on over-sea voyages.

5. In the examination of the first and second classes hereinafter described, the Examiners are to be assisted by a scientific person, competently acquainted with the theory of Navigation and Nautical Astronomy.

6. Such examination is to comprise the several points, and be subject to the several conditions, hereinafter mentioned.

II.—CONDITIONS AND SUBJECTS OF EXAMINATION.

1. No person is to be examined as a Master under twenty-one years of age, nor as a Mate under nineteen years, nor who has not previously served at sea for not less than six years, as regards an examination for Master,* and for not less than four years as regards that for Mate.

2. All candidates for examination must produce sufficient evidence

* One year of which must have been in the situation of chief, or two years in that of second Mate.—See *London Gazette*, May 1, 1849.

14 EXAMINATION OF MASTERS AND MATES.

of their ages, and certificates of service and *sobriety*, general good character and conduct ; *and particular care is to be taken by the Examiners to satisfy themselves as to the habitual sobriety of the party*, previous to granting him a certificate of fitness to take charge and command of, or serve as Master or Mate, on board any vessel.

3. They must be able to write a legible hand, and must understand the first five rules of arithmetic.

4. They will be examined as to their knowledge of seamanship, of rigging vessels, stowing holds, &c. ; in addition to which, those to be admitted into the lowest class, or class 3rd, must be able to correct the courses steered by compass for variation, leeway, &c. ; to work what is termed a day's work ; to prick off the vessel's place on a chart, either by the calculated latitude and longitude, or by the bearings of the land by compass.

5. They must show that they understand the use of the quadrant or sextant, and can observe the sun's meridian altitude, and therefrom determine the latitude ; and are able to work the tides by the age of the moon, from the known time of high water at the full and change.

6. To be entitled to second-class certificates, candidates must, in addition to all the foregoing qualifications, be able to ascertain the latitude by double altitudes of the sun, and by meridian altitudes of the moon, or of those bright planets or stars the places of which are given in the "Nautical Almanac." They must understand the care and management of chronometers, and the mode of working out and ascertaining the longitude therefrom ; and they must be able to ascertain the variations of the compass by the azimuth of the sun, as well as by the amplitude.

7. To be entitled to a first-class certificate, candidates will, in addition to all the foregoing qualifications, undergo a more strict examination as to their proficiency in navigation and also in seamanship, under the many difficult circumstances and trying situations to which vessels may be exposed ; such as having to erect and rig jurmasts, when suddenly requisite, or to form rafts in case of being stranded, &c. ; and in such other cases as call for a higher order of resources. They must have a competent acquaintance with plane trigonometry, a general knowledge of nautical astronomy, including the determination of the latitude by reduction to the meridian, and of the longitude by lunar observations.

8. They must be acquainted with the mode of ascertaining and applying the deviation of the compass, produced by the local attraction, which is of so much importance in all vessels, and particularly in those built of iron or having iron on board in any quantity. They must be practically acquainted with the mode of comparing two or more chronometers, and of rating them by equal altitudes.

9. They must understand the construction of Mercator Charts, so as to be able to correct any errors they may detect in those they possess, as well as to insert with precision any new shoals or islands they may discover ; and must be well versed in the mode of laying down the required course on the chart.

10. They must also possess a knowledge of mercantile book-keeping, at least by single entry.

11. In the event of any candidate proving himself to have higher attainments than the foregoing, such as being well versed in great circle sailing, spherical trigonometry, marine surveying, and a more extensive knowledge of astronomy, it is to be noted in his certificate, and is to entitle him to have "Class 1, extra," thereon.

12. The examination of Mates, who are to be considered as the substitutes for Masters in certain contingencies, is, on that account, to embrace the same branches with the Master's examination in each class respectively, having regard, however, in its details, to the denomination of certificate for which each person may be an applicant.

III.—TIMES OF EXAMINATION.

Every candidate desirous of being examined, shall transmit to the Clerk of the Board by whom he is to be examined, an application in the form hereinafter described, and thereupon such Board shall appoint a proper time for such examination, not exceeding four clear days from the receipt of any such application.

IV.—FORM OF APPLICATION.

Every application for examination should be made in the following form:—

"To the Board of Examiners of Masters and Mates of vessels at the Port of _____

"I, A. B., of _____ being desirous of obtaining a certificate of qualification as a _____, do hereby signify my request to undergo the necessary examination for that purpose; and I herewith deliver my testimonials of character and service, and evidence of age, as per the following list; viz.—1, 2, 3, &c.

"And I hereby declare that I will accept the said certificate of qualification, subject to the withdrawal thereof by any Board of Examiners under such regulations as are now or may from time to time be made by the Lords of the Committee of Privy Council for Trade."

V.—FEES FOR EXAMINATION.

1. In order to provide for the remuneration of the Examiner, or for the incidental expenses of the proposed arrangement, the following fees shall be paid by the candidates examined:—For a Master's certificate, £2: for a Mate's certificate, £1.

2. One-half of the said fees respectively shall be paid by the candidate at the time of the transmission of his application; and the remainder, by candidates deemed entitled to certificates, prior to the issue thereof.

3. In case a candidate fails to obtain a certificate, the sum that he has paid will not be returned to him.

VI.—APPLICATION OF FEES.

1. The fees received by each Board of Examiners shall, after deducting one-fourth part thereof, be applied by them in the remunera-

16 EXAMINATION OF MASTERS AND MATES.

tion of the Examiners, or otherwise for the purposes of the examination, as such Board in its discretion shall think fit.

2. The one-fourth thus deducted shall be held by such Board to be annually applied towards the expenses of such inquiries as are herein-after mentioned, or in defraying all other expenses incidental to these arrangements, as the Lords of the Committee of Privy Council for Trade shall direct.

3. Each Board of Examiners shall transmit to the Lords of the Committee of Privy Council for Trade, in the months of July and January, an account of the fees which they have received during the six calendar months preceding, and of the disbursements paid thereout.

VII.—CERTIFICATES.

1. The following is to be the form of certificate :—

“By the Board of Examiners of Masters and Mates of vessels at the Port of _____

“We do hereby certify that, pursuant to the request of A. B., we have examined into the competency of the said A. B., and have found him duly qualified to fulfil the duties of _____, and to be entitled to this _____ class certificate.”

2. Such certificate shall be signed by the actual Examiners, and in all cases be countersigned by the Secretary or Clerk of the Board of Examiners.

3. Within forty-eight hours after the issue of any such certificate, an authenticated copy shall be transmitted by the Board of Examiners granting the same, to the Lords of the Committee of Privy Council for Trade.

VIII.—WITHDRAWAL OF CERTIFICATES.

1. In case any vessel, the Master or Mate of which has a certificate, shall be lost, burnt, stranded, or otherwise damaged, or in case any Master or Mate having a certificate shall be charged with having been drunk at sea, or with having been drunk on board at different times in harbour, the Board of Examiners nearest the port to which the vessel belongs, or nearest to the place on the coast of the United Kingdom where the vessel to which such Master or Mate belongs, shall arrive, or nearest to where they may be when the complaint is brought forward, may, if it shall think fit, upon receiving any information or complaint of the event or occurrence, inquire into the same, and if it shall appear to the Board of Examiners undertaking such inquiry, that such loss, burning, stranding, or damage, &c., of the vessel has been occasioned by the misconduct or default of such Master or Mate, or that such Master or Mate has been drunk whilst on duty, such Board of Examiners may, if it shall think fit, withdraw the certificate of such Master or Mate, and declare that the same is withdrawn accordingly.

2. Within forty-eight hours after the resolution of any Board declaring the withdrawal of any such certificate, an authenticated copy of such resolution, together with a full statement of the circumstances under which their resolution of withdrawal has been founded, is to be transmitted to the Lords of the Committee of Privy Council for Trade.

3. Any Master or Mate whose certificate has thus been withdrawn may, within seven days after such withdrawal, after giving notice to the Board of Examiners by whom the same shall have been declared to be withdrawn, and also to the Lords of the Committee of Privy Council for Trade, refer the matter to the Lords of the said Committee for their decision, which shall be final.

4. Pending such reference, and until such decision, the publication of the withdrawal of the certificate shall be suspended.

5. Every Board of Examiners, before proceeding to make any such inquiries as hereinbefore are mentioned, shall give seven days' notice of their intention so to do to the Lords of the Committee of Privy Council for Trade; and in case more than one such Board shall give such notice, the Lords of the said Committee shall decide by which Board the inquiry shall be made.

IX.—REGISTRATION AND PUBLICATION OF CERTIFICATES.

1. A registry of certificates and of withdrawal of certificates will be kept, under the superintendence of the Lords of the Committee of Privy Council for Trade, in some convenient place in London, and will be open to inspection at reasonable hours, on payment of a fee of 6d. for each inspection.

2. The Lords of the said Committee will, from time to time, cause the names of the persons who have obtained certificates in their respective classes, and likewise the names and classes of the persons whose certificates shall have been declared to be withdrawn, to be published in the *London Gazette*; and will be transmitted, as soon as conveniently may be, to the Committee of Lloyd's Register.

3. This publication will take place, so far as conveniently may be, within fourteen days after the certificates or declarations of withdrawal shall have been sent to the Lords of the said Committee.

4. The Committee for managing the affairs of Lloyd's Register of British and Foreign Shipping have undertaken to denote in their lists such of the Masters of vessels therein named as shall have obtained certificates, by affixing the figures, 3, 2, 1, 1 ex., according to the class of certificate. These marks will be withdrawn on the withdrawal of the certificate.

N.B. At the Ports of Dublin and Beaumaris, Examining Boards were established in August, 1845, but no Certificates have been granted by either of these Boards.

HONORARY REWARDS.

- (1) Pp. 34, 35. Received a Medal from the Hon. East India Company for his exertions in the battles of Meanee and Hyderabad, whilst in command of the Company's steam-vessel, "*Nimrod*," in 1843.
- (2) P. 37. A Silver Snuff-box was presented to him by the passengers of the barque, "*Thetis*," in October, 1845, "as a token of their regard and remembrance of his kind attention during the voyage to Calcutta."
- (3) P. 37. On landing the foreign emigrants at New York, from the "*Katherine Stewart Forbes*," in 1847, they presented to him a Piece of Plate, "as a token of their respect and esteem, and for his attention to them during the voyage from Antwerp."
- (4) P. 62. A handsome Silver Cup was presented to him for the judicious management displayed in rescuing 76 passengers from the "*King William*," which was wrecked about ten miles from Newcastle, New South Wales, and bears the following inscription :—

"Presented by the Cabin Passengers of the "*King William*" Steamer to George William Jackson, Esq., Harbour Master at Newcastle, as a mark of their gratitude for the prompt and efficient assistance rendered them during the wreck of that vessel on the morning of the 2nd July, 1839."

- (5) P. 76. The Underwriters of Lloyd's presented him with a Gratuity of £100 for his meritorious conduct in saving the lives of the crew and passengers of the "*Nautilus*" steamer, which caught fire, July, 1847, on her passage from Alexandria to Liverpool.
- (6) P. 86. On his return to England after the wreck of the hired transport vessel, "*Briton*," he received the following communication :—

"Admiralty, 26th Oct. 1846.

"Sir,—I am commanded by my Lords Commissioners of the Admiralty to express to you the sense which their lordships entertain of your exertions when the late transport, "*Briton*," was wrecked on the Andaman island; and I am to request your acceptance of a hundred guineas, as a mark of their approbation of your services.

"I am, Sir, your most obedient servant,

"Mr. Alexr. Hall.

"N. SHAW."

- (7) P. 89. A handsome silver snuff-box was presented to him on March 9th, 1840, at Sydney, by his passengers to that port in the barque "*Cumberland*."
- (8) P. 41. The Passengers of the "*Duke of Bronte*" presented a testimonial to Captain Barclay, on their arrival at Adelaide, in October, 1849, in which they publicly thanked him for his uniform kindness and attention to all, and his unbounded liberality to the sick. They also expressed their gratitude for his gentlemanly and manly deportment throughout, his unwearied assiduity for their comforts, and constant eye to the cleanliness of the ship; and last, but not least, for his gentlemanly and firm determination in putting down anything approaching to unpleasantness.
- (9) P. 39. On arrival of the "*Constance*" at Adelaide, in November, 1849, after a passage of 77 days from Plymouth, Captain Godfrey was complimented by an invitation to a public dinner, and received the grateful thanks of his passengers for the ability and gentlemanly conduct displayed during the voyage.
- (10) P. 106. "We, the undersigned merchants and other residents at this port, consider it an act of justice due to Captain John Winchester, of the British brig "*Victoria*," of Newcastle, who is about to return to England, thus to bear testimony to his exemplary prudence and praiseworthy conduct under circumstances the most trying to which he has been subject for more than two years by the detention of his vessel at this port. His steadiness, sobriety, and attention to the duties incumbent on him as a shipmaster have gained the applause of all who know him in this city, and would serve as a pattern to those connected with the profession, particularly in a country where, unfortunately, there are too many instances found of conduct very different to that pursued by Captain Winchester, for which we feel great pleasure in thus testifying cordially to the above facts, and sincerely trust that this deserving young man will have his distinguished merits duly appreciated in his native land; and that he may ever continue deserving the reputation he has gained on this coast, and be prosperous in all his undertakings hereafter."

Signed by Her Britannic Majesty's Consul, Lloyd's Agent,
and several distinguished merchants and residents of
Valparaiso.

Valparaiso, July 10, 1849.

BOARD OF TRADE,
20th June, 1850.

CANCELLED REGISTER TICKETS.

THE Cancelled Tickets on the List consist of all those numbers outstanding, and ascertained not to be in the possession of the persons to whom they were issued. The list includes all Tickets lost by wreck, fire, or other unavoidable accidents, as well as those lost through negligence, and not returned to the Register Office.

From these causes, the number of Cancelled Tickets accumulates greatly between the half-yearly corrections, published in the *London Gazette* and exhibited at the Custom Houses of the United Kingdom. In order to facilitate reference, the numbers are placed *seriatim* on the List, so that it can be readily ascertained if any cancelled number is there.

For example,—Supposing a seaman to present his Register Ticket, No. 6,272, to the master of a ship when signing articles. By looking over the List he will find it between 6,261 and 6,337, and should immediately impound the Ticket, and send it to the Custom House; for he is subject to a penalty for employing a man with a cancelled Ticket, and the seaman forfeits all his wages when working with one; besides being liable to punishment for having in his possession and not rendering up a Ticket that has not been legally issued to him.

Again, for example,—Suppose a Ticket bearing No. 9,220 is presented. On reference to the Cancelled List it should appear between the numbers 9,204 and 9,234, but not being there, it is not a cancelled Ticket.

LIST OF CANCELLED MARINERS' REGISTER TICKETS,

*The distinguishing Numbers of which are hereby published under the Provisions
of the 7th and 8th of Victoria, cap. 112.*

MASTERS OF VESSELS ARE CAUTIONED

Not to employ any person or persons presenting Mariners' Register Tickets bearing any of the Numbers herein set forth; and to render up the Register Tickets of Deserters, and others who do not proceed to sea in their vessels, to the Collectors and Comptrollers of Customs, before quitting the port of departure. And all persons becoming possessed of any such Tickets, or of any Ticket other than that legally issued to or deposited with them, are required to transmit the same forthwith to the Registrar of Seamen, Custom House, London, under a

PENALTY OF £20.

*Any Person working with a Cancelled Ticket, shall forfeit to the Owner of the
Vessel all his Wages.*

CAUTION.—The Masters of Vessels coming from the Westward and bound to the Rivers Thames or Medway, are subject to heavy penalties if they do not hoist the usual signal for a Pilot on arriving off Dungeness, and keep it displayed until the Ship has passed the South Buoy of the Brake, unless in the mean time a duly qualified Cinque-Ports Pilot should have come on board. Masters are particularly warned to keep their Jacks flying, although they may have taken a boatman on board, and engaged his boat and crew to procure a Pilot from the shore. The Pilot Cutters show a large Green Light during the night, and display a Flare-up every 15 minutes.

N.B. There are now no licensed Boatmen, their Licences have been long since revoked, and the Act authorising their being granted repealed. Masters should avoid being imposed upon by any persons pretending to have Licences.

Masters should on no account pay the Shipping Money to the Boat's Crew, but in every case to the Pilot only, *or they will have to pay it twice*, as it has been decided, in several cases, by the Judge of the County Court at Dover and Deal, that, although the Boat's Crew may have received the Shipping Money or more from the Captain, it is still due to the Pilot, and from him to the Boatmen.

BOARD OF TRADE,
25th June, 1850.

A LIST OF STEAM VESSELS

THAT HAVE COMPLIED WITH THE PROVISIONS OF THE 14TH SECTION OF THE STEAM NAVIGATION ACT, AND HAVE OBTAINED CERTIFICATES OF REGISTRY FROM THE BOARD OF TRADE, FOR THE SIX MONTHS ENDING 30TH APRIL, 1850, PREVIOUS TO WHICH DATE ALL CERTIFICATES MUST BE RENEWED.

ALL Steam Vessels, plying with Passengers, either on Sea or Coasting Voyages, or on the Rivers or Inland Waters of the United Kingdom, fall within the Provisions of the 14th Section of the Act 9-10 Vict., c. 100, excepting only such as are specially exempted by the latter part of *that* Section. Steam Tugs are exempt so long as they are used solely for Towing purposes and do not carry Passengers.

The Declarations are required to be sent in to the Board of Trade on or before the 30th of April and 31st of October, subjecting the owners to a Penalty of Ten Shillings for every day's delay beyond those dates, unless satisfactorily accounted for.

Owners of Steam Vessels are bound, under a Penalty of 10*l.*, to *cause a true Copy of the Certificate they have last received from the Board of Trade* to be put up in some CONSPICUOUS part of the Vessel, and *visible to Passengers*.

The Board of Trade has power to limit the Number of Passengers to be carried by Steam Vessels.

Should any Steamer meet with an accident, causing damage to her hull or machinery, or causing loss of life or property, the Master is bound, within a reasonable time, to report the accident and cause thereof to the Board of Trade, under a Penalty of 50*l.* for neglecting so to do.

A document was also issued by the Lords of the Privy Council on 7th August, 1849, enforcing a New Code of Regulations in relation to the *Carriage of Passengers between Ireland and the British Shores*, and contains the following clauses :—

“ 1. The number of deck passengers to be carried by a paddle steamer, having no cargo on deck, shall be one passenger to every ton of the builder's tonnage.

“ 2. The number to be carried by a paddle steamer, having cargo on deck, but none of it stowed abaft the paddle-shaft, shall be one passenger to every registered ton.

“ 3. The number to be carried when cargo (not live animals or poultry) is stowed abaft the paddle-shaft, shall be three passengers to every two square yards of clear space abaft the paddle-shaft.

“ 4. The number to be carried where live animals or poultry are stowed abaft the paddle-shaft, shall be fixed with reference to the arrangement of the vessel and cargo, so as to provide, as nearly as

possible, two square yards for every three passengers, in a part of the vessel separate from the cattle and live stock.

"5. Screw steamers, in which the deck passengers are allowed to go below, and are accommodated on space on the lower deck for one-half their numbers, or on that on which the bulwarks are raised, and a spare deck constructed so as to afford protection to the passengers on deck, shall be licensed to carry the same number of passengers in each case as paddle steamers.

"6. Screw steamers in which these provisions are not made, shall be licensed to carry only one passenger to every four tons of the registered tonnage.

"7. The proportion of passengers to be carried in the months of November, December, January, February, and March, shall be two-thirds the number allowed in the other months."

NOTE.—The number of passengers indicated in the following Table, as regards Irish Steamers, represents the number to be carried during the Summer Months, *i. e.*, from *April* to *October*, inclusive. One-third of the Number must be deducted for the Winter Months from November to March inclusive.

LIGHTS FOR STEAMERS.

ADMIRALTY NOTICE, *June 29th*, 1848.

By the Commissioners for executing the Office of Lord High Admiral of the United Kingdom of Great Britain and Ireland, &c.

Whereas under and by virtue of the Act of Parliament, passed in the 10th year of the reign of her present Majesty, intituled “An Act for the Regulation of Steam Navigation,” &c., we hereby require, in pursuance of the said Act, that lights shall be exhibited by all British steam-vessels, between sun-set and sunrise, of such description and in such manner as hereinafter mentioned, that is to say—

When under weigh.

1. Bright white light at the foremast head.
2. Green light on the starboard side.
3. Red light on the port side.

When at anchor.

A common bright light.*

The following conditions to be observed, viz. :—

1. The mast head light to be visible at a distance of at least five miles in a clear dark night, and the lantern to be so constructed as to show a uniform and unbroken light over an arc of the horizon of 20 points of the compass—viz., from right ahead to two points abaft the beam on each side of the ship.

2. The coloured side lights to be visible at a distance of at least two miles in a clear dark night, and the lanterns to be so constructed as to show a uniform and unbroken light over an arc of the horizon of 10 points of the compass—viz., from right ahead to two points abaft the beam on their respective sides.

3. The side lights to be moreover fitted with inboard screens, of at least three feet long, to prevent them from being seen across the bow. The screens to be placed in a fore and aft line with the inner edge of the side lights.

* 4. The lantern used when at anchor, to be so constructed as to show a good light all round the horizon.

It is understood to be the intention of the Lords of the Admiralty to issue regulations in accordance with the foregoing announcement, and to have them published in the *London Gazette*, so that they may be in force from the 21st day of July next.

* Diagrams illustrative of the above plan, and instructions as to the proper mode of fitting the lights, will be furnished to parties applying for them.

NOTICES TO MARINERS.

LIGHTS ON THE COAST OF FRANCE.

HYDROGRAPHIC OFFICE, ADMIRALTY,

25th June, 1849.

The French Government has given notice, that Three new Lights will be established on the Coast of France, on the 1st of next July, namely: one at the entrance of the Port of Boulogne, and two others on the western coast.

1. *Boulogne Fixed Red Light.*

On the N. E. jetty head at the entrance of the Port of Boulogne, a Fixed and permanent Red Light, 46 feet high, will replace the present Tide Light, and be visible at the distance of four miles.

NOTE.—The two vertical Lights on the S. W. jetty head will retain their character of Tide Lights; the upper Light being shown as soon as there are 9 feet in the shoalest part of the Channel, and the second Light at the moment of high water. Both of these Tide Lights will be extinguished when the depth of the Channel is reduced to 9 feet.

2. *Kermorvan Fixed Light.*

A Fixed Light on Kermorvan Point on the northern side of the entrance to Port Conquet, in lat. $48^{\circ} 21' 43''$ N. and long. $4^{\circ} 46' 13''$ W. of Greenwich. Being 72 feet above the level of the sea, it may be seen at the distance of about 15 miles, and if kept in one with the light on St. Mathieu Point it will lead through the Channel du Four.

3. *Toulinguet Fixed ed Light.*

A Fixed Red Light on Toulinguet Point to the westward of Camaret Bay, in latitude $48^{\circ} 16' 50''$ N. and longitude $4^{\circ} 37' 40''$ W. of Greenwich. The Light is 161 feet above the level of the sea, and is visible about four miles.

NAVIGATION OFF YARMOUTH.

TRINITY-HOUSE, LONDON,

28th July, 1849.

Notice is hereby Given,

That in accordance with the intention expressed in the Advertisement from this House, dated 2nd ultimo: the undermentioned alterations have been carried into effect, viz. :

The St. Nicholas Light Vessel has been taken away from her former Station, and now lies in 10 Fathoms at Low Water Spring Tides, at the *North* End of St. Nicholas Sand, with the following Marks and Compass Bearings, viz.—

St. Peter's Church, in line with the Royal Hotel	N. W. $\frac{1}{4}$ N.
North Mill at Gorleston, its width to the Northward of Nelson's Monument . .	W. N. W.
Gorleston South Mill, in line with the South End of the Harbour Master's House	W. $\frac{1}{4}$ S.

The North St. Nicholas Buoy has been taken away and will be discontinued, and a *Beacon* has been placed upon the *South West Scroby Buoy*.

NOTE.—The *intentions* also notified in the said advertisement to place a Buoy of large dimensions at the South end of the Scroby, and to move the large Buoy at the South Cross Sand to the *North* end of that Sand, have not yet been carried into effect.

By Order,
J. HERBERT, *Secretary*.

MARGATE SAND AND THE GULL STREAM.

TRINITY-HOUSE, LONDON,
7th August, 1849.

MARGATE SAND.

Notice is hereby Given,

That in order more distinctly to mark the N. E. Spit of Margate Sand, the Black and White Chequered Can Buoy, now at that station, will be taken away, and a *Nun Buoy* of large size and of the same Colours, placed instead thereof.

GULL STREAM.

The "Bunt Head" having extended itself so far in a South Westerly direction as to render the Black and White Chequered Buoy at the Fork no longer necessary ;—

Notice is hereby Given,

That the said Buoy of the *Fork* will be taken away and discontinued.

The alterations above mentioned will both be carried into effect on or about the 15th September next,

By Order,
J. HERBERT, *Secretary*.

NAVIGATION OFF YARMOUTH.

TRINITY-HOUSE, LONDON,
8th August, 1849.

Referring to the Advertisement from this House, dated 28th ult.—

Notice is hereby Given,

That the following Alterations have been carried into effect, viz.—

SOUTH END OF THE SCROBY SAND.

The Can Buoy (Black) at this Station has been taken away, and a large Black Nun Buoy, surmounted by a Staff and Ball, placed instead thereof.

CROSS SAND.

A Black Can Buoy of ordinary size has been placed at the South Cross Sand, and the large Nun Buoy (Red) with a Staff and Ball, previously at that Station, moved to the North end of that Sand.

By Order,
J. HERBERT, *Secretary*.

LIGHTS IN SEA REACH, RIVER THAMES.

TRINITY-HOUSE, LONDON,
9th October, 1849.

Notice is hereby Given,

That in accordance with the intention expressed in the Advertisement from this House, dated 8th August last, Two Lights are now exhibited nightly on the North Side of the Navigable Channel of Sea Reach, that is to say,—

One off the Chapman Head, near to the spot on which the Beacon stands, and

One at Mucking Flat.

Mariners are to Observe,

That the Light off the Chapman Head is exhibited on board a Vessel, pending the erection of a permanent structure, and is of the usual or natural Colour of a Floating Light—and

That the Light at the Mucking, which is shown for the present from

a temporary erection close to the Land Side of the Sea Wall, and bears from the Westernmost Beacon of the Blyth Sand, about N. $\frac{1}{2}$ W., burns at 25 feet 6 inches, above the Level of High Water Spring Tides; this Light is also of the natural colour, until it strikes the Spit of the Ovens Shoal, a short distance outside the 9 feet mark of Low Water Spring Tides, and on the bearing of S. W. by W. nearly, to the Westward of which the colour of the Light is Red.

NOTE.—A Black Beacon Buoy of large size will be forthwith placed on the Spit of the Ovens Shoal, respecting which farther particulars will be published in a few days.

By Order,

J. HERBERT, *Secretary.*

OVENS SHOAL SEA REACH, RIVER THAMES.

TRINITY-HOUSE, LONDON,

15th October, 1849.

Notice is hereby Given,

That a Black Nun Buoy of large Size, surmounted by a Staff and Ball, has been placed in 9 Feet at Low Water Spring Tides at the extremity of the Ovens Shoal, and with the following Marks and Compass Bearings, viz. :

EXAMINATION OF MASTERS AND MATES IN THE MERCHANT SERVICE.

GENERAL REGISTER AND RECORD OFFICE OF SEAMEN,
2, Hammet-street, Tower Hill, June, 1850.

MR. EVERARD HOME COLEMAN

Begs to inform the Masters and Mates in the Merchant Service, that by an Admiralty Order dated 23rd March, 1847, the Masters and Chief Mates of all Transports, Convict Ships, and Freight Ships with Troops, taken up in future by the Government, will be required to pass the Examination under the Regulations issued by order of the Lords of the Committee of Privy Council, and published in the "*London Gazette*" of the 19th August, 1845; and also to refer them to the further minute of their Lordships issued in December, 1847, by which it was directed that on tendering for Government stores, &c., preference should be given to those vessels the Masters and Mates of which had already obtained their Certificates of competency.

Mr. C. having received Certificates of Proficiency in Navigation and Nautical Astronomy from the Trinity House, Captain Lynn, late Examiner of the Honourable East India Company's Maritime Officers, Rev. W. Webster, A.M., Head Mathematical Master to Christ's Hospital, and from his father, Mr. George Coleman, F.R.A.S., who for thirty-five years has been the Naval Instructor at Messrs. Norie and Co.'s Navigation Warehouse, 157, Leadenhall Street, has devoted from 6 to 10 P.M. for the purpose of qualifying Candidates for the various Classes of Certificates; for the prior examination of those persons who intend offering themselves for the Examination, and for the instruction of those parties who may be engaged during the day; and by continued exertions to secure the progress of the pupil and efficiency for his profession, will endeavour to merit a continuance of the support received during the last five years from the Merchants, Shipowners, and Officers of the Merchant Service, who have honoured him with their patronage.

INTRODUCTION.

THE publication of "The Mercantile Navy List" has been delayed beyond the usual period, pending the discussion of the important Laws lately introduced, and now enacted by Parliament, for improving the discipline of the Merchant Service, and placing the regulations connected therewith under the control of the Board of Trade.

The Lords of the Committee of Privy Council for Trade having been pleased to adopt "The Mercantile Navy List" as a channel for promulgating the regulations and orders that may become necessary from time to time; the book will henceforth assume a more official character, and all information contained therein be considered authentic.

In order to explain to Shipowners and their Officers the nature of their business in connection with the Boards of Examiners and the Shipping Masters, a careful abridgment of the Official Instructions, issued for the guidance of these officers, is inserted; and such other valuable information is detailed, under separate heads, as will render "The Mercantile Navy List" a useful and necessary appendage to the merchant's counting-house and the captain's cabin. The compilation of the tabular matter has been a work of considerable labour and expense; the influential support of those connected with the Mercantile Marine is therefore confidently anticipated in favour of a periodical so essential to their general interests.

J. H. BROWN,
Registrar-General of Seamen.

MEMORANDUM.

In consequence of the prevalence of Desertion, particularly in the British Colonies, the notice of Shipowners is particularly directed to the following Clause in the Mercantile Marine Act, expressly framed to insure the conviction of Offenders when the evidence of the Master and the production of the Log Book are not available. Owners should caution the Masters of their Ships of the necessity of strict attention to this provision, as considerable inconvenience and loss of forfeited wages has already resulted from the certificates required not having been forwarded to the Registrar of Seamen in order to be produced, to sustain the charge of Desertion, in the Police Courts :—

“And be it enacted, that in all Cases of Desertion from any ‘Ship’ in any place abroad, the Master shall produce the Entry of such Desertion in the Official Log Book to the Person or Persons required by the ‘General Merchant Seamen’s Act’ to indorse on the Agreement a Certificate of such Desertion ; and such Person or Persons shall thereupon make and certify a Copy of such Entry and also a Copy of the said Certificate of Desertion ; and if such person is a public Functionary, he shall, and in other Cases the Master shall, forthwith transmit such Copies to the Registrar General of Seamen in London ; and the said Registrar shall, if required, cause the same to be produced in any legal Proceeding ; and such Copies, if purporting to be so made and certified as aforesaid, and if shown to have come from the Custody of the said Registrar, shall in any legal Proceeding relating to such Desertion be received as Evidence of the Entries therein appearing.”—13 & 14 Vic. cap. 93, sec. 74.

In all Ports, except those enumerated above, having Local Boards, the duty of Shipping Master is performed by the Collector of Customs.

APPROPRIATE CERTIFICATES.

A PERSON possessing a Master's Certificate, whether of competency or service, is eligible to command any vessel of whatsoever tonnage, and either certificate is sufficient for clearance at the Custom House. But a condition in the Charter party of vessels taken up by Government for the conveyance of troops, stores, or emigrants, and also the Regulations of the principal Steam Packet Companies, require that the Master and principal officers shall possess Certificates of competency.

The First Mate may engage as Mate of any kind ;

The only Mate as First Mate when there is no other ; or as Second Mate when there is a First Mate.

The Second Mate is not appropriate for any superior station, and must be employed only in cases where a First Mate is also engaged.

Certificates of Competency or Service may be either of a grade appropriate to the Stations held for the time being, or of any superior grade.

ABRIDGMENT

OF THE

INSTRUCTIONS TO SHIPPING MASTERS.

ISSUED BY THE LORDS OF THE COMMITTEE OF PRIVY COUNCIL FOR TRADE

THE Shipping Offices established under the Act will be of three classes :—

First.—Those established by local marine boards.

Secondly.—Those established in ports where no local boards exist, which will be in the Custom Houses, and be conducted by the Officers of Customs.

Thirdly.—Those established in Sailors' Homes in the Port of London.

The first will be under the control of the local boards by which they are established, and the officers employed in them are to look to the local board for their instructions, except in matters relating to the receipt and payment of money, as to which they are to obey the instructions of the Board of Trade.

The second and third are subject in all matters to the immediate control of the Board of Trade.

The following instructions have been prepared chiefly with a view to the two latter classes ; but as those parts which relate to the receipt and payment of money will apply to the first also, and as it may be found convenient by the local boards to have one uniform printed code of instructions which they can adopt, subject to any modifications they may severally think necessary, these instructions have been made as complete as possible, and include certain duties which belong only to the first class of Shipping Offices. These duties are specially distinguished wherever mentioned, and may be divided as follows :—

General Duties.

His general duties will be to see that his Office is so managed as to afford every facility to parties attending ; to be prepared for the transaction of business at all reasonable hours ; to post up the Scales of Fees and of Payments for Documents sold at the Shipping Offices ; and to give such other Notices as may be requisite.

To keep properly the Books for the entry of Applicants for Employment, and to facilitate the making of Apprenticeships ; and of Men shipped and discharged ; to make the entries therein duly and punctually, and to allow the same to be referred to by Masters and Ship Owners who may wish for information to be derived therefrom.

To assist Owners of Ships in convicting defaulters or deserters, by adducing the necessary evidence, and in all cases of Litigation to produce in Court any material documents, duplicates, counterfoils, registered entries, or other evidence which may be in his possession, or be sent to him from the Register Office of Seamen.

To have at all times on hand a supply of the sanctioned Forms and Papers, so that no inconvenience or obstruction may arise for lack of them.

To act as the channel through which attested copies of documents deposited in the General Register and Record Office of Seamen will reach parties at the outports.

If any Master or other person refuses or neglects to transact his business with the Shipping Master in the manner required by law and by the regulations of the office, the Shipping Master, if appointed by a local board, is to report the case to such board ; and if appointed otherwise, to the Board of Trade ; but before making any such representation every facility and explanation should be afforded by the Shipping Master, so that the Master's refusal or neglect may not proceed from ignorance.

*Duties with respect to the Engagement of Crews of Foreign-going Ships.**

If furnished with a book for the purpose he is to enter the names of seamen who want employment, and to allow masters who want crews to inspect it.†

Whenever masters desire to make use of the Shipping Office for the purpose of selecting and engaging their Crews, the Shipping Master will have to obtain from them the particulars necessary for filling up the notice of the engagement of the crew, and to post it in the Shipping Office, and he must then do all that lies in his power to procure the attendance of a suitable crew at the appointed time.

Whenever a master engages his crew elsewhere, and has recourse to the Shipping Office only for the purposes absolutely required by the Act, this notice will be unnecessary. In either case, however, it is essential that the Shipping Master should have at least six hours' notice of the time at which the Master and crew are to attend, and he should insist on such notice being given to him. At the time when such notice is given he should desire the Master to procure, if possible, a written authority for advance of wages, and should furnish him with the necessary form for this purpose, which should, if possible,

* For description of a Foreign-going ship, see Note at p. 27.

† This book will only be kept at the larger ports.

be filled up and returned to the Shipping Master when the agreement is to be signed. At the time fixed for this purpose, the Master will attend, and, if he has not previously selected his crew, may select them from the men in attendance; or, if he has selected them, will bring them with him. The Master and crew being in attendance, the Shipping Master must see that the agreement is properly settled in duplicate, and the successive folios, if more than one, properly numbered, that the blanks are properly filled up, that the reference, if any, to the sanctioned regulations as to fines is properly made, and that a copy of the Regulations for maintaining discipline is settled accordingly and attached to the copy of agreement which the Master is to take to sea.

In settling the agreement it will be the Shipping Master's duty to remonstrate against the insertion of any stipulation which he considers contrary to the Acts of Parliament. When the agreement is settled, he must read it over to the crew, or cause it to be read over to them in his presence, and explain it, if necessary: the Master must then sign it, and afterwards each member of the crew, and the Shipping Master must attest each signature. He must then see that the copy of the agreement, which is to be made accessible to the crew, is made to correspond with the original Agreement. This form, as well as a duplicate of the Agreement and Regulations agreed to, will be taken away by the Master; the Shipping Master must retain the other duplicate of Agreement for transmission as after-mentioned. On the latter duplicate the acknowledgment of an authority for Advances should be signed by the Shipping Master, if such an authority has been given. He should then see that the Advance Notes and Allotment Notes are properly filled up, and that the counterparts of the Advance Notes are made to correspond; and, if he supplies the Allotment Notes, that the counterparts of these also are made to correspond. The Allotment Notes and Advance Notes may be delivered to the crew at once, and placed in the hands of the seamen themselves, in the presence of the Shipping Master; and the Shipping Master must see that they are delivered according to the Act.

In cases in which it is the practice for a Foreign-going Ship to clear from one port and to engage none or a part only of her Crew at that port, and then to proceed to another port for the purpose of taking or completing her Crew, the following is the practice to be adopted:—At the first port, the Agreement is to be signed as usual in duplicate before the Shipping Master by the Master and as many of the Crew as are engaged there, and the Fee is then to be paid according to Schedule B. Both the duplicates of the Agreement are then to be delivered to the Master, who is to take them with him to the Port where the remainder of the Crew is to be engaged, and is to produce them to the Shipping Master at such Port, and they must then be signed in his presence by the persons engaged there. One of the duplicates will then be sent to the Registrar of Seamen, and one retained by the Master as usual. *No fee is to be charged at the second Port for persons engaged there, if they form part of the original crew of the ship;* but if the men engaged before the Shipping Master there are substitutes for men previously engaged, the fee of 2s. must always be paid for each.

After the 1st of September 1851, the Certificates of Masters and Mates in foreign-going ships, instead of being produced together with the Agreement to the Collector and Comptroller of Customs when clearing the ship, are to be produced

to the Shipping Master at the time of executing the Agreement ; and he must take care that every Master and Mate has a Certificate appropriate to the station he holds in the ship, or of a higher grade (See page 16, for explanation of Appropriate Certificate). The Shipping Master is then to furnish the Master with a Certificate AA, which shall satisfy the Customs that the regulation respecting the execution of the Agreement, and the possession of appropriate Certificates has been complied with.

Foreign-going Steam Ships, and other vessels making frequent voyages, are allowed to have Running Agreements to terminate half yearly, on the 30th of June and 31st of December, or on the first return to the United Kingdom after these dates. These Running Agreements are intended to relieve the Masters of those vessels, who keep the same crews, from the necessity of entering them and discharging them before the Shipping Master every voyage. The practice in these cases will be as follows :—On the first engagement of the crew they will sign the Agreement Form A, the blanks in the body of which must be filled up so as to meet the case before the Shipping Master, and in the usual manner. On the first, and every return intermediate between the first commencement and the termination of the agreement, the Master must produce his Agreement to the Shipping Master. If he has any men to discharge or engage, he must discharge and engage them before a Shipping Master in the usual manner, paying the fee of two shillings for each man so discharged or engaged ; and the appropriate Certificates of Mates must be produced when changes occur. The Master must make an indorsement on the Agreement to the effect (as the case may be) either that no men have been discharged or engaged, or are intended to be discharged or engaged before the ship proceeds to sea again ; or that all the men who have been so discharged or engaged, or are intended to be discharged or engaged, have been discharged or engaged before a Shipping Master. The Master shall be warned that a false statement submits him to the penalty of 20*l*. The Shipping Master will then indorse the Agreement, with a statement properly dated, to the effect that the law has been complied with, and give the Master Certificate AA to clear his ship. As the law requires that the duplicate of the Agreement shall be sent to the Registrar of Seamen, to prevent the inconvenience of frequent transmission of that document, when ships are constantly returning to the same port, a third copy should be executed and retained by the Shipping Master ; on this, and on the original in the Master's possession, the changes must be entered ; and in all cases of discharges or entries, Form Schedule G must be filled up and sent to the Registrar of Seamen. When the ship does not return to the same port, the Master should take the third copy with him and produce it, with his Agreement, to be filled up and completed by the Shipping Master, or Shipping Masters, before whom he subsequently discharges the remainder of his crew. On the termination of the Agreement, which must be no later than the first return of the ship to the United Kingdom, after the 30th of June or 31st of December next after its commencement, the whole of the crew must be discharged before the Shipping Master, the papers transmitted to the Registrar of Seamen in the usual way, and a new agreement may then be made for the following half year.

The fees are payable in the usual way, regulated by tonnage on the first agreement and final discharge of the crew—the fee of two shillings on each

intermediate engagement and discharge. If, however, men are transferred, in the course of the six months, from one ship to another, belonging to the same Owners engaged in the same trade, and having an agreement similar in its terms, no fee need be paid for the discharge from the one and entry into the other.

The deductions from the wages of each man will, of course, be made for their engagements and discharges only to which the man was a party, and for which a fee has been paid by the owner.

HOME-TRADE SHIPS.—Masters and Owners of vessels of less than eighty tons burden, employed in coasting only, are no longer compelled to have written Agreements with their crews; and Masters and Owners of such vessels, of whatever burden, are no longer compelled to have Official Log Books. The Form D must, however, be produced for such vessels as heretofore. The law in respect to these has reverted to what it was under the Merchant Seamen's Act.

Colonial Ships are subject to the Provisions of the Mercantile Marine Act in the same manner as other ships, except when trading direct between the United Kingdom and their own colony having a Legislative Assembly, and therefore must conform to the regulations of the Shipping Offices. When trading direct they render an account of their crews on Form Schedule C, as before, and obtain the Customs, or Shipping Master's receipt, in order to jerk their ships. Those which engage their crews in their own colony or territory, and are to take them back to that colony or territory, are not bound to engage them afresh before a Shipping Master in England, although the trading of the ship, as far as cargo is concerned, may be between some port in the United Kingdom and other parts of the world. For instance, a Jersey ship which engages her crew in Jersey according to the law of Jersey, and is finally to discharge them in Jersey, may come to London for a cargo and then trade to America and come back to London before finally discharging her crew in Jersey, without being obliged to take them before the London Shipping Master. If, however, any of her men are actually engaged or discharged in London, they must be engaged or discharged (as the case may be) before a Shipping Master.

Payment must be made by the Master of the proper fees and of the purchase-money for such forms and documents as are supplied to him. To prevent difficulty, these payments should be made on the commencement of business.

The crew being engaged, as above mentioned, notice should be given of the time for being on board, by posting up the notice properly filled up.

By these means the business of engaging the crew will be accomplished, and by the notice above mentioned, and other judicious arrangements, which will vary in the different ports, the presence of the men may be pretty generally secured at the time appointed.

If any man who has been so engaged, deserts or does not join, the Shipping Master, on receiving notice thereof, shall enter it against the man's name in his books, and, on his again applying for an engagement, give notice to the Ship Owner to furnish the evidence necessary to convict him. If, after the ship's departure, any question should arise concerning the Advance Notes or Allotment Notes, the Shipping Master should produce, from the documents in his possession, such evidence as may be required to determine it.

For the purpose of reducing the Fees payable by Masters and Owners of Ships which make short and frequent voyages, and the deductions to be made from the wages of Crews on account of such voyages, *Fees payable upon the engagement and discharge of Crews under Schedule B. of the Mercantile Marine Act, are not to be paid more than twice in one year, in respect of the same Ship*; so that after making the ordinary payments on two voyages, any further engagement or discharge of the Crew may be effected without further payment. The year for the above purpose is to be taken as commencing on the 1st of January and ending on the 31st December.

For the purpose of proving a right to exemption on this ground, the following plan is to be adopted:—As the Official Log will generally serve for several short voyages, the Master of a Ship making such voyages should enter in his Official Log the payment of the Fees paid by him on his two first voyages, and the Shipping Master to whom he pays them should sign the entries. When, after making two voyages, he again comes to a Shipping Office to engage or discharge his Crew, he must produce the Log with such Entries made in it, and the Shipping Master is, on such production, to proceed with the business without demanding any Fee; and he is to enter the Name of the Ship, and other particulars, in the appropriate Schedule of Account, and to add the words—“*Fees paid on two previous Voyages.*”

Duties with respect to the Discharge of Crews of Foreign-going Ships.

The crew of every Foreign-going ship must be discharged before a Shipping Master.

At least twenty-four hours' notice of the time appointed for this purpose should be given to the Shipping Master by the Master or Owner.

The Master is to deliver the Official Logbook, and the account of his Crew duly filled up to the Shipping Master, within forty-eight hours after the ship's arrival, and on receipt of it, the Shipping Master must give a certificate there for the purpose of clearance. He must also make an entry of the delivery of the Logbook, in the book supplied for the purpose.

The Master is to give to every Seaman, or leave with the Shipping Master on his behalf, unless he specially desires to be paid without waiting for account, an account of his wages in the required form, twenty-four hours before the time of payment. On the attendance of the crew, the money will be paid in the Shipping Master's presence.

The Shipping Master will then see by the entries in the table at the beginning of the Log, whether any Fines or Forfeitures have been inflicted, and will be able to refer at once to the entries. If these entries are not made and attested in the manner required by the Act, the Shipping Master is not to allow any deduction to be made. If any Fines have been inflicted for offences enumerated in the regulations sanctioned by the Board of Trade, and adopted in the Agreement, they are to be paid to the Shipping Master, who must give a receipt for the same, and enter the amount in the proper place in his accounts. If, however, the Master chooses, in consequence of subsequent good conduct, to remit any such Fine, he is to be allowed to do so; but the Shipping Master should require his reasons for so doing, and if they do not appear satisfactory, should note the fact.

The Shipping Master should give every assistance in his power to check the practice of Desertion.

For this purpose he should, when ships are paid off in this country, and especially in the case of those which come from the North American colonies, examine Form C and the Agreement, in order to ascertain, if possible, whether any of the crew have deserted from other ships. If he has reason to suspect that they have done so, he should warn the Master or Owner not to pay those men until communication has been made to the Owner of the ship from which the men have deserted, in order that the forfeiture may be claimed under 7 & 8 Vict. c. 112, s. 9, and the Mercantile Marine Act, s. 73. He should then communicate with the last-named Owner either immediately, if he knows where he is, or through the medium of the Registrar of Seamen, who will, when he has the means, forward any letters addressed to him for this purpose, and furnish any information or assistance which may be in his power. If no claim is made by the Owner of the ship from which the men have deserted, or if that claim does not reach the full amount of the wages earned by the deserter on the homeward voyage, the whole of the surplus (as the case may be) of such wages should be claimed under the 9th section of 7 & 8 Vict. c. 112, and the 111th section of the Mercantile Marine Act for the Board of Trade.

If it appears that the seaman has, on engaging himself in the ship in which he comes home, made a false statement of the name of his last ship, or of his own name, for the purpose of concealing the fact of his having deserted, or for any other fraudulent purpose, the Shipping Master should insist on the forfeiture provided for by section 75 of the Mercantile Marine Act. Some instances have occurred in which deserters have refused to give the names of their last ship. In these cases the Master should be warned that he is, under 7 & 8 Vict. c. 112, sections 26 & 27, and the Mercantile Marine Act, sections 47 & 55, subject to penalties for not returning this particular in the Agreement and in List C, and that he should, therefore, not engage any man without obtaining from him a statement of it. He should also be asked whether he can give any and what evidence which would lead to the conviction of the deserter.

In the above cases the strict course will be to take the offenders before a magistrate, and have the forfeiture inflicted in due legal form. If, however, the parties are satisfied to leave the matter in the hands of the Shipping Master, without having it decided by a Magistrate, the forfeiture may be paid at once, and, in such cases, the Shipping Master should use his discretion in mitigating the amount, whenever he may consider it desirable to do so.

Lastly, the Shipping Master should take every opportunity of pointing out to Masters and Owners the means of checking desertion, which the provisions of 7 & 8 Vict. c. 112, section 9, and the Mercantile Marine Act, sections 70, 71, 72, 73, 74, and 75, place at their disposal, and of urging on them the importance of taking active measures to carry these provisions into effect, of giving mutual assistance to each other, and to the Shipping Masters, for this purpose.

If there is any dispute, and the parties mutually agree to refer the same to the decision of the Shipping Master, they are to state their submission to his Arbitration, and he is then to decide to the best of his ability, and for that purpose may call for any Papers as evidence, to enable him to come to a just

determination. When his decision is made, the Shipping Master is, if required by either of the parties, for legal or other purposes, to sign and give them a written certificate of his decision in the proper Form.

Upon payment of the wages, and settlement of disputes (if any) being effected, the Shipping Master is to require the Master and Crew to sign a mutual release in the sanctioned Form, which is to be attested by the Shipping Master. This document must be produced if a subsequent dispute arises.

Before the business is completed the Master must give to the Shipping Master in duplicate a report of the character of his crew, one copy of which is to be kept by the Shipping Master, and the other transmitted to the Registrar of Seamen, as mentioned below. If any seaman requires a certificate of character, the Shipping Master is to deliver it to him.

It is very desirable, though not absolutely required by the Act, that the certificate of discharge should be given to the crew, and their Register Tickets returned in the presence of the Shipping Master, so as to insure their delivery to the right persons. The Shipping Master should always be ready to offer his services for this purpose, and should also, if the seamen are willing, and if consistent with convenience, offer to keep these documents for them in his office till they obtain another engagement.

Should the Shipping Master in the course of investigating the Logbook, or by any other means, discover any act of omission or commission contrary to the provisions of the Act, he should report the same, if appointed by a local board, to such board, and if otherwise appointed, to the Board of Trade, in order that, if necessary, proceedings may be taken, and a record of the fact made in the Register Office.

Upon the discharge being effected, the Shipping Master should make proper entries in the book for entering discharges, and should especially attend to the entries of character. If he has reason to suspect the truth of any report of character, he may at his discretion omit to make the entry, or state his opinion concerning it.

The Shipping Master, if required, is to return the Logbook to the Master, Owner, or party entitled thereto, after he has had possession of it for forty-eight hours; but it may be called for by direction of the Board of Trade at any time after such re-delivery within two years.

In ports to which ships resort which are engaged in the Whale Fishery, and which are so circumstanced that attendance before a Shipping Master for all or any of the above-mentioned purposes, would cause great inconvenience, the Shipping Master must, as soon as possible after the receipt of these instructions, make a general Report to the Board of Trade, who will thereupon give the necessary directions.

Duties with respect to the Engagement and Discharge of Single Seamen.

On the engagement or discharge of single seamen the process will be the same, so far as the circumstances will permit, as on the engagement and discharge of crews. The fees to be taken are mentioned in the scale.

Duties with respect to Home-trade Ships.

As regards Home-trade ships, the necessary duty of Shipping Master is confined to the following points:—The half-yearly receipt and due transmission of the Agreement of Vessels over eighty tons, and the half-yearly List of Crew of those and all others of whatsoever size. On the receipt of these documents,

he is to give a certificate to the Owner or Master, which will enable him to receive a *transire*. If it appears by the Logbook that any fines have been imposed for breaches of the Regulations mutually agreed upon, sanctioned by the Board of Trade and adopted by the parties, he is to require them to be paid to him, and to deal with them as in the case of Foreign-going Ships.

But when the Masters of Home-trade ships wish to avail themselves of the Shipping Offices for the engagement or discharge of their crew, he is, in such case, to follow the course prescribed for Foreign-going ships, so far as the law and the various necessary documents apply to Home-trade ships : and in this case the same fees are to be charged as in the case of Foreign-going Ships.

Duties with respect to the Sale of the Printed Forms.

Advance Notes *must in all cases be bought at the Shipping Office*, and are to be sold only when wanted for immediate use ; and in such numbers as are actually wanted. The Shipping Master must, when possible, fill them up, or see them filled up, and also see that the counterfoil of each, which is to remain in his possession, is made to correspond with the note. There will in general be nothing to prevent his doing this, as it is required by the Act that when seamen are engaged in his presence, Advance Notes must be given in his presence. Men, however, who are engaged subsequently to the first engagement of the crew, are not obliged to receive their notes in the presence of a Shipping Master ; and to meet these cases the Shipping Master must, in addition to the notes delivered to the crew, furnish the Master with such blank notes as he may require. In such cases he should number the notes and the counterfoil and request the Master, if the notes are not used, to restore them, or, if this is impossible, to cancel them.

As the Advance Notes have been expensively executed with a view to prevent forgery, and enhance their value to the Seamen, and as they now require no stamp, they will be sold at 1*d.* each, and will not be included in the general scale of the price of Forms. No extra charge is ever to be made for the trouble of filling them up.

The Shipping Master must in this, as in all other cases, look to the Master for payment, whatever further arrangement may be made between the latter and his crew.

All the Forms necessary for a Foreign-going or Home-trade ship, *except Advance Notes*, may either be purchased at the Shipping Office, or elsewhere, and brought to the Shipping Office, to be there used and dealt with as the case may require. If purchased at the Shipping Office, a whole set must be paid for, according to the scale to be furnished for the purpose, which will vary in proportion to the size of the ship. This payment must be made in full, whenever the Shipping Master is required to supply *any* of the necessary documents, so that he may never be required to supply broken sets, or to receive or account for fractions of the sums mentioned in the scale.

On the engagement and discharge of single seamen, the necessary documents are to be supplied without charge, except Advance Notes.

It is very desirable that in places where the staff is sufficient, the Shipping Masters should fill up and settle, or make their assistants fill up and settle, the various documents, so that it may be correctly and legibly done ; and in the case of Advance Notes, according to the rules above laid down, the blanks must always be filled up by the Shipping Master.

Duties with respect to the Examination and Certificates of Masters and Mates.

In places where examinations are held the Shipping Master will be supplied with the necessary forms. Every applicant for examination must, before the examination begins, apply at the Shipping Office to have his name put down, and to pay his fee. The Shipping Master is then to sign the receipt, and to deliver it to the applicant to fill up, who must, on presenting himself to be examined, deliver it, properly filled up, with his testimonials, to the Examiner. The Shipping Master is to send a list of the applicants, immediately before the examination commences, to the Examiners.

The above duties are confined to those of the ports having local boards at which examinations are held. Shipping Masters will, however, also be the channels through which the certificates of competency will reach the applicants, and their testimonials, if sent to London for verification, will be restored to them. Consequently, as applicants may frequently leave the port at which they are examined, and desire to have their documents sent elsewhere, all Shipping Masters, however appointed, and wherever stationed, must be prepared to perform the following duties :—

Every applicant who passes will, on the conclusion of the examination, receive a Form filled up, and signed by the Examiner; and, upon his presentation of this ticket to the Shipping Master to whom it is directed, the Shipping Master must require him to sign his name in the proper place on the back of the certificate of competency, and of the office copy; and, unless he sees ground for suspecting personation, must make the proper entries on the certificate and office copy, and deliver the former, with the testimonials (if any), to the applicant, and return the office copy to the Register Office. If he sees reason to suspect personation, he must report the case to the local board, if appointed by a local board, and, if not, to the Board of Trade.

If an applicant fails to pass, he will receive from the Examiner an order, and the Shipping Master, to whom it is directed, must return him half his fee, and must also, if the testimonials have been forwarded to the Registrar, and transmitted by him to the Shipping Master, return them to the applicant.

The Shipping Master will also have duties to perform in the case of applications for the renewals of lost certificates, either of competency or service. A form of application for that purpose is supplied. The fee must be paid, the receipt for it signed, and the Form properly filled up. The Shipping Master must then transmit it to the Registrar, who will send down a new certificate and office copy to be properly filled up. The former will then be delivered to the applicant, and the latter returned to the Register Office. If the certificate proves to have been lost by wreck or fire, the fee will be returned. The other duties of the Shipping Master relate to the Keeping of his Books and rendering his Accounts to the Board of Trade.

Duties with respect to the Receipt and Payment of Money.

On this subject every Shipping Master, however appointed, is bound to follow the instructions of the Board of Trade, and, if required, to communicate directly with the Board of Trade on the subject.

The Shipping Master is to be the channel through which all local receipts and payments are to pass.

NOTICE OF EXAMINATIONS OF MASTERS AND MATES.

ESTABLISHED IN PURSUANCE OF

THE MERCANTILE MARINE ACT, 1850.

Issued by authority of the Board of Trade.

AFTER the first day of January, 1851, no foreign-going * vessel will be permitted to clear out from any Custom-house in the United Kingdom, unless the masters and mates respectively are in possession of appropriate † Certificates, either of service or of competency.

The Certificate of Service entitles an officer, who has already served as either master or mate, to go in those capacities again, and may be had by application to the Registrar-General of Seamen, Custom House, London, on the transmission to him of the necessary certificates and testimonials.

Certificates of Competency are granted by the Board of Trade to all masters and mates who have passed examinations, whether under the old or the present regulations, and also to all Officers who have passed Lieutenants', Masters', and Second Masters' examinations, in the Royal Navy and East India Company's service, unless special reasons to the contrary exist; and any person desirous of exchanging a passing Certificate—obtained under the former Boards of Examiners—for a Competency Certificate, should send it to the Registrar-General, as before-mentioned, with a request to that effect, and state the Port to which he wishes it to be returned, where it will be delivered to him by the Collector of Customs.

All other Officers, entering for the first time upon their duties, whether as master or mate, will be required to undergo an examination at one of the Boards of Examiners before they can act in either of those capacities.

For the convenience of such persons, Examiners have been appointed under the Local Marine Boards, and arrangements have been made for holding the Examinations at Ports upon different days; and these days are so arranged for general convenience, that a candidate wishing to proceed to sea, and missing the day at his own Port, may proceed to another Port where an examination

* By a Foreign-going vessel is meant one which is voyaging to some place out of the United Kingdom, beyond the limits included between the rivers Elbe and Brest.

† For appropriate Certificates, see page 16.

is coming forward. The Days for commencing the Examinations at the various Ports are given in pages 9 to 15, and for procuring the Examination papers from the Shipping Master, see page 25.

The Examinations required for qualification for the several ranks under-mentioned, are as follow:—

A SECOND MATE must be seventeen years of age, and must have been four years at sea.

IN NAVIGATION.—He must write a legible hand, and understand the five first rules of arithmetic. He must be able to correct the courses steered for variation and lee-way, and find the difference of latitude and departure therefrom; be able to correct the sun's declination for longitude, and find his latitude by meridian altitude of the sun; and work such other easy problems of a like nature, as may be put to him. He must understand the use of the quadrant, and be able to observe with it, and read off the arc.

IN SEAMANSHIP.—He must give satisfactory answers as to the rigging and unrigging of ships, stowing of holds, &c.; must understand the measurement of the log-line, glass, and lead-line; be conversant with the rule of the road, as regards both steamers and sailing-vessels, and the lights carried by them.

AN ONLY MATE must be eighteen years of age, and have been four years at sea.

IN NAVIGATION.—In addition to the qualification required for a Second Mate, an only Mate must be able to find the place of his vessel at sea by the observed altitude of the sun, comprising the latitude by meridian altitude, by his courses and distances run from the place of departure. He must work a day's work complete, including the bearings and distance of the port he is bound to. He must be able to observe and calculate the amplitude of the sun, and deduce the variation of the compass therefrom. He must know how to lay off the place of the ship on the chart, both by bearings of known objects, and by latitude and longitude. He must be able to use a sextant and determine its error, and adjust it.

IN SEAMANSHIP.—In addition to what is required by a Second Mate, he must know how to moor and unmoor, and to keep a clear anchor; to carry out an anchor; to stow a hold, and make the requisite entries in the ship's log.

A FIRST MATE must be nineteen years of age, and have served five years at sea, of which one year must have been as either Second or only Mate, or as both.*

IN NAVIGATION.—He must be able to calculate the time of high water, from the known time at full and change; to observe azimuths and compute the variation; to compare chronometers and keep their rates, and find the longitude by them from an observation by the sun; to work the latitude by single altitude of the sun off the meridian; and be able to use and adjust the sextant by the sun.

IN SEAMANSHIP.—In addition to the qualification required for an only Mate, a more extensive knowledge of seamanship will be required, as to shifting large spars, and sails, managing a ship in stormy weather, taking in and making sail, shifting yards and masts, &c., and getting cargo in and out; and especially

* Service in a superior capacity is in all cases to be equivalent to service in an inferior capacity.

heavy spars and weights, anchors, &c.; casting ship on a lee-shore; and to secure the masts in the event of accident.

A MASTER must be twenty-one years of age, and have been six years at sea, of which one year must have been as First or only Mate, and one year as Second Mate; or two years as First and only Mate.*

In addition to the qualification for a First Mate, he will be inquired of as to the nature of the attraction of the ship's iron upon the compass, and as to the method of determining it. He must possess a sufficient knowledge of what he is required to do by law; as to entry, and discharge and the management of his crew; as to penalties and entries to be made in the official log. He will be questioned as to his knowledge of invoices, charter-party, Lloyd's agent, and as to the nature of bottomry.

He must be acquainted with the leading lights of the channel he has been accustomed to navigate, or which he is going to use.

AN EXTRA MASTER'S EXAMINATION is intended for such persons as are desirous of obtaining command of ships and steamers of the *first class*.

IN NAVIGATION.—As such vessels frequently make long voyages, to the East Indies, and the Pacific, &c., the candidate will be required to work a lunar observation by both sun and star, to determine the latitude by the moon and star, and also by double altitude of the sun.

He must understand how to observe and apply the deviation of the compass; and to deduce the set and rate of the current from the D.R. and observation. He will be required to explain the nature of great circle sailing, and know how to apply practically that knowledge, but he will not be required to go into the calculations. He must be acquainted with the law of storms, so far as to know how he may probably best escape those storms common to the East and West Indies, and known as hurricanes.

IN SEAMANSHIP.—The extra examination will consist of an inquiry into the competency of the party to heave a ship down, in case of accident befalling her abroad; of getting lower masts and other heavy weights in and out; how to construct rafts, and as to his resources for the preservation of the ship's crew in the event of wreck, and in such like operations as the examiner may consider necessary.

The candidates will be allowed to work out the various problems according to the method and the tables they have been accustomed to use, and will be allowed five hours to perform the work; at the expiration of which, if they have not finished, they will be declared to have failed.

Extra Examinations are held at the ports of Bristol, Glasgow, Liverpool, London, Newcastle, Shields, and Sunderland; and at these only can be procured extra certificates of competency.

Applicants for examination are required to give their names to the Shipping Master, or to the Local Marine Board at the place where they intend to be examined, on or before the day of examination, and to conform to the regulations in this respect which may be laid down by the Local Marine Board, and if this be not done, a delay will be occasioned.

The examinations will commence early in the forenoon on the days before-

* See note, page 28.

mentioned, and be continued from day to day, until all the candidates whose names appeared upon the Shipping Master's list on the day of examination are examined.

Testimonials of character, sobriety, and trustworthiness, will be required of all applicants, and without which no person will be examined; and as testimonials may have to be forwarded to the office of the Registrar General of seamen in London for verification, before any Certificates can be granted, it is desirable that candidates should lodge them as early as possible. Upon application to the Shipping Master, candidates will be supplied with a Form, which they will be required to fill up and lodge with their testimonials in the hands of the Examiners.

The fee for examination must be paid to the Shipping Master or the officer appointed *pro tem.* by the Local Board to receive it. If a candidate fail in his examination, half the fee he has paid will be returned to him by the Shipping Master on his producing a document which will be given him by the Examiner.

The following are the fees to be paid by applicants for examination:—

	£	s	d.
Second Mate	1	0	0
First and only Mate, if previously possessing an inferior certificate	0	10	0
If not	1	0	0
Master, whether Extra or Ordinary	2	0	0

Any one who already possesses a Master's first-class Certificate granted by one of the former Boards of Examiners, or an Ordinary Master's Certificate of competency granted under the present Examiners, may pass an Extra Examination, and receive an Extra Certificate in exchange for his former one, without payment of any fee. But if he fails in his first Examination, he must pay half a Master's fee on his coming a second time; and the same sum for every subsequent attempt.

If the applicant passes, he will receive a document from the Examiner which will entitle him to receive his Certificate of Competency from the Shipping Master at the port to which he has directed it to be forwarded. If his testimonials have been sent to the Registrar to be verified, they will be returned with his Certificate.

As the examinations of Masters and Mates are now, for the first time, made compulsory, the qualifications have been kept as low as possible; but it must be distinctly understood that it is the intention of the Board of Trade to raise the standard in the course of time, whenever, as will no doubt be the case, the general attainments of officers in the merchant service shall render it possible to do so without inconvenience; and officers are strongly urged to apply their leisure hours, when in port, to the acquirement of the knowledge necessary to enable them to pass their examinations. Masters will do well to permit apprentices and junior officers to attend schools of instruction, and to afford them as much time for this purpose as possible.

Certificates of Competency are distinguished as follows, and signed by the Naval Members of the Board of Trade:—

Masters who have passed the extra examination, a Blue seal.

All other Masters a Red seal.

First Mate a Blue ; Only Mate a Red ; and Second Mate a Yellow seal.

Certificates of Competency, whether of Masters or Mates, given in exchange for those who have passed the examination under Regulations of the Board of Trade dated 19th August, 1845, a Green Seal.

Certificates of Service, whether Masters or Mates, are issued to those who have served in such capacities prior to the first of January, 1851, signed by the Registrar-General of Seamen, and these are to be obtained by transmitting to the General Register and Record Office, in London, a claim on a printed form, to be procured at any Custom House or Shipping Office. Upon the claim being verified, the Certificate is transmitted to the Collector of Customs at any port desired.

GENERAL REGISTER AND RECORD OFFICE OF SEAMEN,
CUSTOM HOUSE, SEPTEMBER 1, 1851.

HONORARY REWARDS.

- Certif. 416. Received a Medal from the Hon. East India Company for his exertions in the battles of Meanee and Hydrabad, whilst in command of the Company's steam-vessel, "*Nimrod*," in 1843.
- Certif. 471. A Silver Snuff-box was presented to him by the passengers of the barque, "*Thetis*," in October, 1845, "as a token of their regard and remembrance of his kind attention during the voyage to Calcutta."
- Certif. 498. On landing the foreign emigrants at New York, from the "*Katherine Stewart Forbes*," in 1847, they presented to him a Piece of Plate, "as a token of their respect and esteem, and for his attention to them during the voyage from Antwerp."
- Certif. 549. On arrival of the "*Constance*" at Adelaide, in November, 1849, after a passage of 77 days from Plymouth, Captain Godfrey was complimented by an invitation to a public dinner, and received the grateful thanks of his passengers for the ability and gentlemanly conduct displayed during the voyage.
- Certif. 603. The Passengers of the "*Duke of Bronte*" on their arrival at Adelaide (and the remaining portion of the Emigrants on their landing at Melbourne), in October, 1849, presented a testimonial to Captain Barclay, in which they publicly thanked him for his uniform kindness and attention to all, and his unbounded liberality to the sick. They also expressed their gratitude for his gentlemanly and manly deportment throughout, his unwearied assiduity for their comforts, and constant eye to the cleanliness of the ship; and last, but not least, for his gentlemanly and firm determination in putting down anything approaching to unpleasantness.
- Certif. 885. On arrival of the "*Bussorah Merchant*," at Port Adelaide, in December, 1848, the Emigrants presented a gold watch and chain to Captain Edwards, as a mark of their gratitude for his attention during the voyage; and in October, 1849, a similar compliment was paid to him by the Emigrants on their landing at Port Philip, when he received a large silver cup, knife, fork, and spoon. In May, 1850, at a dinner given by the cabin passengers, a sextant, valued at thirty guineas, was presented as a mark of their estimation of Captain Edwards's distinguished merits.
- Certif. 1225. A handsome Silver Cup was presented to him for the judicious management displayed in rescuing 76 passengers from the "*King William*," which was wrecked about ten miles from Newcastle, New South Wales: it bears the following inscription:—
 "Presented by the Cabin Passengers of the "*King William*" Steamer to George William Jackson, Esq., Harbour Master at Newcastle, as a mark of their gratitude for the prompt and efficient assistance rendered them during the wreck of that vessel on the morning of the 2nd July, 1839."
- Certif. 1643. The Underwriters of Lloyd's presented him with a Gratuity of £100 for his meritorious conduct in saving the lives of the crew and passengers of the "*Nautilus*" steamer, which caught fire, July, 1847, on her passage from Alexandria to Liverpool.

- Certif. 1799.** The passengers from England in the "*Digby*," on their arrival at Port Philip in September, 1850, presented Captain Buchanan with a gold watch and chain, with a suitable address, acknowledging his humane treatment, his merits as a seaman, and his provident kindness towards every one during the voyage.
- Certif. 1969.** On his return to England, in October, 1846, after the wreck of the hired transport vessel, "*Briton*," on Andaman island; the Lords Commissioners of the Admiralty presented him with one hundred guineas, as a mark of their approbation of his services.
- Certif. 2054.** A handsome silver snuff-box was presented to him on March 9th, 1840, at Sydney, by his passengers to that port in the barque "*Cumberland*."
- Certif. 2571.** Her Britannic Majesty's Consul, Lloyd's Agent, and several distinguished merchants and residents of Valparaiso, on the occasion of Captain Winchester, of the brig "*Victoria*," of Newcastle, returning to England, in July, 1849, after a detention of two years in that port, presented him with a testimonial of their approbation of his conduct, and particularly as regarded his steadiness, sobriety, and attention to the duties incumbent on him as a shipmaster.
- Certif. 2884.** Received a silver snuff-box from Duncan Dunbar, Esq., owner of the "*Isabella*," of London, as a token of gratitude for his kindness to 307 Irish Emigrants on a voyage from Plymouth to Sydney.

HONORARY REWARDS TO OFFICERS NOT POSSESSING CERTIFICATES OF COMPETENCY.

- Henry Beverley Disney, Junr.,** in 1838, received from the King of Holland a gold medal and certificate of merit; from the town of Harlingen, a silver cup; and from the South Holland Royal Humane Society a first class gold medal, for rescuing, during a violent hurricane, the nine surviving persons from the deck of a Dutch packet, trading between Harlingen and Amsterdam.
- The Underwriters of Lloyd's** in 1843 presented Mr. Bracey R. Wilson and the crew of the "*Cubana*" the sum of 100*l.* "in consideration of the able conduct of the Master, and the great exertions of the crew, in not abandoning their vessel during a hurricane on their passage from St. Jago de Cuba to England.
- Samuel Bullard** received from the Senate of Hamburg a memorial and a medal for his assistance in extinguishing the fire which occurred in that city on the 8th May, 1843.
- James Cort,** of the "*Favorite*," in 1848, received from the Jersey Mutual Insurance Society 15*l.* for his praiseworthy conduct in saving the above-named vessel.
- The Underwriters of Lloyd's,** in the year 1839, presented Mr. George Orange, Master of the "*Amelia*," of Jersey, with a chronometer and silver salver, "as a testimonial of their grateful sense of his indefatigable exertions in saving the cargo of the '*Amelia*,' after the loss of that vessel at Fulche."

William Heath Roach, in 1846, when in command of the "*Laurel*," received a gold medal from the French Government for rescuing the master and crew of "*Le Dorade*," of Dunkirk.

The French Minister of Marine, granted in May, 1851, a silver medal of the second class and a diploma of merit to John Lee Crane, Master of the Brig, "*Triphenæ*," for saving a French fisherman, whose boat had upset at sea.

John Williams, in 1849, received, at New York, from one of the principal Insurance Companies a gold watch and acromatic telescope for his great exertions in saving the "*Lady Bagot*" and her valuable cargo.

BOARD OF TRADE,

20th August, 1851.

CANCELLED REGISTER TICKETS.

THE Cancelled Tickets on the List consist of all those numbers outstanding, and ascertained not to be in the possession of the persons to whom they were issued. The list includes all Tickets lost by wreck, fire, or other unavoidable accidents, as well as those lost through negligence, and not returned to the Register Office.

From these causes, the number of Cancelled Tickets accumulates greatly between the half-yearly corrections, published in the *London Gazette* and exhibited at the Custom Houses of the United Kingdom. In order to facilitate reference, the numbers are placed *seriatim* on the List, so that it can be readily ascertained if any cancelled number is there.

For example,—Supposing a seaman to present his Register Ticket, No. 6,272, to the master of a ship when signing articles. By looking over the List he will find it between 6,261 and 6,353, and should immediately impound the Ticket, and send it to the Custom House ; or he is subject to a penalty for employing a man with a cancelled Ticket, and the seaman forfeits all his wages when working with one ; besides being liable to punishment for having in his possession and not rendering up a Ticket that has not been legally issued to him.

Again, for example,—Suppose a Ticket bearing No. 9,220 is presented. On reference to the Cancelled List it should appear between the numbers 9,209 and 9,234, but not being there, it is not a cancelled Ticket.

LIST OF CANCELLED MARINERS' REGISTER TICKETS,

distinguishing Numbers of which are hereby published under the Provisions of the 7th and 8th of Victoria, cap. 112.

MASTERS OF VESSELS ARE CAUTIONED

to employ any person or persons presenting Mariners' Register Tickets bearing any of the Numbers herein set forth; and to render up the Register Tickets of Deserters, and others who do not proceed to sea in their vessels, to the Collectors and Comptrollers of Customs, before quitting the port of departure. And all persons becoming possessed of any such Tickets, or of any Ticket other than that legally issued to or deposited with them, are required to transmit the same forthwith to the Registrar of Seamen, Custom House, London, under a

PENALTY OF £20.

Person working with a Cancelled Ticket shall forfeit to the Owner of the Vessel all his Wages.

BOARD OF TRADE,

8th July, 1851.

REGULATIONS RESPECTING STEAM VESSELS.

BOATS AND LIGHTS,

TO BE CARRIED BY SEA-GOING SHIPS.

On the 7th of August, "The Steam Navigation Act of 1851," being 14 & 15 Vict., cap. 79, received the royal assent, and it will come into operation on the 31st of December, 1851, until which time the existing Acts, 9 & 10 Vic., cap. 100; and 11 & 12 Vic., cap. 81, with the Regulations founded thereon, remain in force.

The new Act "Consolidates and Amends the laws relating to the Regulation of Steam Navigation, and to the Boats and Lights to be carried by sea-going vessels." It retains some of the old, and enacts new, provisions, as follows:—

Existing Certificates, granted to Steam Vessels by the Board of Trade, to remain in force until cancelled or revoked.

Naval Department of the Board of Trade to assist the Lords of the Committee in the execution of this Act.

Owners of all Steam Vessels (except those employed as Foreign-going ships,* or in conveyance of mails under contract with the Admiralty,) shall cause a survey to be held by the Surveyors deputed by the Board of Trade, twice at least every year, as near as practicable to the 30th of April and the 31st of October, and procure a declaration of the sufficiency of their vessels for sea, river, or lake service; the good condition of the machinery; number of passengers to be carried; adjustment of compasses, and other particulars, upon which a Certificate will be granted by the Board of Trade. Neglect subjects the owner to penalties, besides that his vessel cannot obtain Custom House clearance or transire.

Certificates to be in force for six months.

Fees to be paid for Certificates, from two to four pounds, according to tonnage, and to be applied towards defraying expenses.

Certificate, or true copy thereof, must be placed in a conspicuous part of the vessel.

Penalties on owners or masters of vessels for carrying more than the regulated number of passengers; on persons forcing themselves on board, or refusing to quit; for not paying fares, or refusing name and address.

Board of Trade to appoint Surveyors of vessels, and Surveyors of machinery, who are to have free permission for inspection, and to make certain detailed returns.

Steam Vessels to have safety valves upon each boiler, free from the care of the engineer; to have hoses; signal guns; life buoys, and boats; and if built of iron to have water-tight partition, under penalty for neglect.

* A Foreign-Going-Ship is a Vessel trading or going between the United Kingdom, and ports outside the limits of Brest and the River Elbe.

Admiralty to make regulations respecting Lights, and existing regulations (see page 183) to continue until revoked. To observe rules for passing.

All accidents, or apprehended loss of steam vessels, to be reported to Board of Trade.

Provisions for obtaining summary convictions, or penalties for offences under the Act, with right of appeal; and not to extend to ships of war, or Foreign vessels, or to affect privileges of the Corporation of London.

N. 3. The fractional parts of 2-10ths of a penny, that arise every day in the calculating of the wages, in the 3d, 5th, and 7th columns, are rejected in the several additions in compiling these columns, when under 6-10ths of a penny; but from 6-10ths to 9-10ths of a penny, inclusive, they are reckoned as one penny.

N.B.—By the 5th section of the Act 9th & 10th VICTORIA, chap. 99, it is enacted that “ All persons whosoever who shall find, take up, or be in possession of any Wreck of the Sea, or any Goods, Jetsam, Flotsam, Lagan, or Derelict, or any Boat, Vessel, Apparel, Anchor, Cable, Tackle, Stores, or Materials, or any Goods, Merchandise, or other article whatsoever, which shall have been found floating or sunk at Sea or elsewhere in any Tidal Water, or cast, thrown or stranded upon the shore, and whether the same be found above or below high water mark, and whether wholly on land or wholly in the water, or partly on land and partly in the water, or shall find and take possession of any Droit of Admiralty of any description, whether such person shall claim to be entitled to such article of Droit or not, shall forthwith send to the Receiver or to the Collector or Comptroller of Customs at the Port or place nearest to which such articles or Droits have been found, a Report in writing of all such articles or Droits so found, containing an accurate and particular description of the marks (if any) thereon, and of the time and situation when and where the same were found, and in default, the Person offending is liable to such Forfeitures and Penalties as in the said Act mentioned.”

OFFICIAL NOTICES.

LIGHTS FOR STEAMERS.

ADMIRALTY NOTICE, *June 26th, 1848.*

By the Commissioners for executing the Office of Lord High Admiral of the United Kingdom of Great Britain and Ireland, &c.

Whereas under and by virtue of the Act of Parliament, passed in the 10th year of the reign of her present Majesty, intituled "An Act for the Regulation of Steam Navigation," &c., we hereby require, in pursuance of the said Act, that lights shall be exhibited by all British steam-vessels, between sun-set and sunrise, of such description and in such manner as hereinafter mentioned, that is to say—

When under weigh.

1. Bright white light at the foremast head.
2. Green light on the starboard side.
3. Red light on the port side.

When at anchor.

A common bright light.*

The following conditions to be observed, viz. :—

1. The mast head light to be visible at a distance of at least five miles in a clear dark night, and the lantern to be so constructed as to show a uniform and unbroken light over an arc of the horizon of 20 points of the compass—viz., from right ahead to two points abaft the beam on each side of the ship.

2. The coloured side lights to be visible at a distance of at least two miles in a clear dark night, and the lanterns to be so constructed as to show a uniform and unbroken light over an arc of the horizon of 10 points of the compass—viz., from right ahead to two points abaft the beam on their respective sides.

3. The side lights to be moreover fitted with inboard screens, of at least three feet long, to prevent them from being seen across the bow. The screens to be placed in a fore and aft line with the inner edge of the side lights.

* 4. The lantern used when at anchor, to be so constructed as to show a good light all round the horizon.

It is understood to be the intention of the Lords of the Admiralty to issue regulations in accordance with the foregoing announcement, and to have them published in the *London Gazette*, so that they may be in force from the 21st day of July next.

* Diagrams illustrative of the above plan, and instructions as to the proper mode of fitting the lights, will be furnished to parties applying for them.

CONSULAR FEES.

ORDER IN COUNCIL

RESPECTING FEES TO BE LEVIED BY CONSULS ON CERTIFYING TO THE SHIPMENT,
DISCHARGE, OR DESERTION OF SEAMEN.

At the Court of Buckingham-Palace, the 14th day of April, 1851.

PRESENT,

The QUEEN'S Most Excellent Majesty in Council.

WHEREAS by a certain Act of Parliament made and passed in the sixth year of the reign of His late Majesty King George the Fourth, intituled "An Act to regulate the payment of salaries and allowances to British Consuls at Foreign Ports, and the disbursements at such ports for certain publick purposes," it is amongst other things enacted "that it shall and may be lawful for all Consul-General and Consuls appointed by His Majesty, and resident within the dominions of any Sovereign or any Foreign State or Power in amity with His Majesty to accept, take, and receive the several fees particularly mentioned in the tables to this said Act annexed, for and in respect or on account of the several matters and things and official acts and deeds particularly mentioned in the said schedules; and that it shall and may be lawful for His Majesty, by any order or orders to be by him made, by and with the advice of His Privy Council, from time to time, as occasion may require, to increase or diminish or wholly to abolish all or any of the fees aforesaid, and to establish and authorise the payment of any greater or smaller or new or additional fees or fee, for or in respect of the several matters and things mentioned in the said schedules or any of them, or for or in respect of any other matters or things or matter or thing to be by any such Consul-General or Consul done or performed in the execution of such his office."

And whereas such Consuls-General and Consuls have under the provisions of the said Act, levied fees on certificates as to the shipment and discharge and desertion of British seamen at Foreign Ports:

And whereas it is expedient to alter the said fees: now, therefore, in pursuance of the said Act, and in execution of the powers in Her Majesty in Council in that behalf vested, it is hereby ordered by Her Majesty, by and with the advice of Her Privy Council, that whenever a British Consul-General, Consul, or Vice-Consul shall be called upon by masters of merchant ships to give his sanction in writing as to the shipment or discharge of a seaman, or his certificate as to the desertion of a seaman, it shall be lawful for such Consul-General, Consul, or Vice-Consul to demand, recover, and receive from all masters or other chief officers or commanders of any ship or vessel belonging to any of Her Majesty's subjects, the sum of Two SHILLINGS for each seaman whose shipment or discharge shall have been so sanctioned, or whose desertion shall have been so certified; and that it shall not be lawful for such Consul-General, Consul, or Vice-Consul to levy a larger fee for this service.

And the Right Honourable Viscount Palmerston, one of Her Majesty's Principal Secretaries of State, is to give the necessary directions herein accordingly.

WM. J. BATHURST.

MERCHANT SEAMEN'S FUND.

Notice to Masters and Seamen.

WHEREAS by an Act of Parliament passed this 8th day of August, 1851, intituled "An Act to amend the Acts relating to the Merchant Seamen's Fund, and to provide for winding up the said Fund, and for the better Management thereof in the meantime," it is, amongst other things, enacted as follows :—

Section 20. "After the passing of this Act no Master or Seaman shall be compelled to pay any Duty or Contribution to the Fund; but any Duties which have become due to the Fund, and have been deducted from Wages before the passing of this Act, shall be paid to the Board of Trade, or in such manner as it directs; and any Master or Owner who neglects or refuses to make such Payment shall, in addition to such Payment, be liable to a Penalty of twice the Amount which he so neglects or refuses to pay."

Section 21. "No Master or Seaman who has not contributed to the Fund before the passing of this Act shall be allowed to contribute thereto, or to establish any Claim for a Pension or other Relief for himself or for his Wife or Children."

Section 22. "All Masters and Seamen who before the passing of this Act have contributed to the Fund, shall be allowed to continue to contribute thereto in manner herein-after mentioned, and shall in respect of their Contributions be entitled to Relief in the Manner and subject to the Conditions herein-after mentioned."

Section 23. "The Board of Trade shall fix the Time at which the Contributions to be made after the passing of this Act are to commence, and shall give not less than One Month's Notice thereof by advertising the same in the London Gazette; but such Time shall not be later than the First Day of January, One thousand eight hundred and fifty-two."

Notice is hereby given, that in pursuance of the Provisions of this Act, Masters and Seamen will, after this 8th Day of August, 1851, no longer be compelled to pay any Contributions whatever to the Merchant Seamen's Fund.

Due Notice will be given of the Time at which the voluntary Contributions referred to in the Twenty-second Section of the Act, above quoted, are to commence, and of the manner in which they are to be paid.

By Order,
J. HERBERT, *Secretary*.

BRAKE SAND, GULL STREAM.

TRINITY-HOUSE, LONDON,
26th April, 1851.

The very frequent occasions on which the ordinary Beacon Buoy at the South End of the Brake Sand has been damaged by Shipping, having rendered it advisable to place a Mark thereat which will be less liable to sustain injury,

Notice is hereby Given,

That the aforesaid Buoy has been taken away, and a *Mast Buoy* painted Black, with a *round head*, placed in substitution thereof.

By Order,
J. HERBERT, *Secretary*.

LIGHTHOUSE ON ROTTNEST ISLAND.

A Revolving Catoptric Light will be exhibited from the Lighthouse near the centre of Rottneest Island on and after the night of 1st June, 1851, during the period between sunset and sunrise.

The Lighthouse is a white stone tower, 53 feet in height, erected on the summit of the island, and is surmounted by a lantern 11 feet high.

The light will consist of two groups of three powerful lamps each; the whole revolving once in two minutes, and showing a flash of light of five seconds' duration every minute, with intervals of 55 seconds of darkness. The centre of the light is 197 feet above high water level, and at the height of 18 feet may be seen in clear weather at a distance of 7 leagues.

Rottneest Lighthouse is in latitude $32^{\circ} 3' 19''$ S., longitude $115^{\circ} 31' 18''$ E. from Greenwich, and stands 3 miles N. 75° E. by compass from the West extremity of the Island, and $2\frac{1}{2}$ miles W. by compass from its East extremity.

LIGHTHOUSE AT ENTRANCE TO SWAN RIVER.

PERTH, WESTERN AUSTRALIA,

3rd May, 1851.

On and after the 1st of June, 1851, a plain continuous light will be exhibited on summit of Arthur's Head, the South point of entrance to Swan River, between sunset and sunrise, for the convenience of shipping making for the anchorage in the night.

The light will be 92 feet above high water level, supported by a white stone tower erected on summit of a cliff, and will be visible 5 leagues at sea in clear weather from a height of 18 feet.

It is in latitude $32^{\circ} 3' 13''$ S., longitude $115^{\circ} 45' 11''$ E. from Greenwich, and bears S. 71° E. 12 miles from the Revolving Light, on Rottneest Island.

J. S. ROE,

Surveyor General.

LIGHTS AT THE SPURN POINT.

TRINITY-HOUSE, LONDON,
7th August, 1851.

The encroachments of the Sea upon Spurn Point, at the Entrance of the River Humber, having made the preservation of the Low Light in its ordinary position both difficult and uncertain ;—and it having been ascertained, that the exhibition of a Light situate to the North Westward of the High Lighthouse, is equally effective for the purposes of Navigation, as that heretofore exhibited to the South Eastward of the said High Lighthouse,

Notice is hereby Given,

That the Low Light at the Spurn Point will henceforth be exhibited from a building which has been set up to the North Westward of the High Lighthouse, and that to the South Eastward thereof discontinued.

By Order,

J. HERBERT, *Secretary.*

FLOATING LIGHT, BAHAMA BANK, OFF RAMSAY, ISLE OF MAN.

EDMISTON'S DREADNOUGHT, A NEWLY INVENTED WATERPROOF COAT,

Entirely superseding the old-fashioned cumbersome Macintosh. *One fact alone causes this Waterproof to be superior to any other extant, particularly for the Tropics, namely, the process of Mineralisation, testing the India-rubber to 300 degrees of heat, thereby obviating the sticking, cracking, and unpleasant smell, in all previous Waterproofs.*

Price, according to size, 28s. to 40s.

EXPEDITION IN SEARCH OF SIR JOHN FRANKLIN.

The GUTTA PERCHA COMPANY have been favoured with the following Letter from CAPTAIN FORSYTH, R.N., relative to the value of

THE GUTTA PERCHA BOAT

USED IN THE EXPEDITION.

(COPY.)

14, Stratford Place, Camden Square, Camden Town, Nov. 18, 1850.

Gentlemen,—It gives me much satisfaction in being able to bear testimony to the value of Gutta Percha in constructing Boats. The Gutta Percha Boat presented to Lady Franklin by Messrs. Searle & Co., for the use of the late Expedition under my command to the Arctic regions, proved AN INVALUABLE ACQUISITION TO THE EXPEDITION. Whilst the other Boats constructed of wood suffered much by the cutting of the young ice, THE GUTTA PERCHA BOAT WAS NOT IN THE LEAST DAMAGED, and returned to England in almost as good condition as when she left, although she underwent all the rough work of the voyage.

I remain, Gentlemen, your obedient servant,
CHARLES C. FORSYTH, Commander, R.N.

To the Gutta Percha Company,
Wharf Road, City Road, London.

GUTTA PERCHA AIR-TIGHT LIFE-BOAT CELLS, BUOYS, &c.

GUTTA PERCHA being uninjured by sea water, and also of less specific gravity, is serviceable for many nautical purposes.

It has now been satisfactorily in use at Spurn Head since May, 1849, as the following letter will testify:—

From Mr. BENJAMIN BEE, Buoy Master, Trinity House, Hull.

(COPY.)

Trinity House, Hull, Oct. 19, 1850.

I have great pleasure in stating that the four Gutta Percha air-tight boxes obtained of you in May, 1849, for the Life Boat at Spurn, were, on examination a few months afterwards, found to be as good as new; and that they, together with the seventeen boxes furnished in October, 1849, STILL APPEAR FAULTLESS, and from the time that they have been in use, I believe the material to be very suitable for the purposes of a Life Boat.

I remain, Sir, yours truly,
BENJAMIN BEE, Buoy Master.

Beg to remind Captains and Owners that they keep on hand a large stock of Boys' Clothing, suitable for both shore and sea wear, in the preparation of which every care is exercised by them to secure good materials and workmanship, and consequent durability. They refer to the favours so long extended to them as evidence that their efforts are appreciated by those who have made use of their establishments; and pledge themselves to renewed endeavours to maintain the reputation they have acquired. Every article of Clothing needed by Seamen and Emigrants also kept on hand. Shop Chests made up on reasonable terms.

LET those who require the aid of a TRUSS try COLES'S PATENT, of Charing Cross, thirty years established, who has been honoured with Testimonials from the highest of the faculty, and others who have worn trusses for half a century; amongst whom are men of rank in the Army and Navy, the Church, and in private life, all attesting their superiority. COLES'S PATENT MEDICATED BANDS, for the cure of Rheumatism, Sciatica, Lumbago, &c., are equally valuable.—Manufactory, 3, Charing Cross.—A Letter on either subject is twopence.

SHIPWRECKED FISHERMEN AND MARINERS' ROYAL BENEVOLENT SOCIETY.

Patron.

HER MOST GRACIOUS MAJESTY, THE QUEEN.

President.

ADMIRAL OF THE FLEET, THE RT. HON. SIR GEORGE COCKBURN, G.C.B.

THIS Society was Instituted in 1839, and Incorporated by Act of Parliament, 13 Vict., 1850, having the following objects in view:—

- 1st.—To board, lodge, and clothe, and forward to their homes, or to their nearest Consuls, if foreigners, ALL wrecked Seamen, Soldiers, or other poor persons of ALL NATIONS, cast destitute upon the Coasts.
- 2nd.—To assist Seamen, Fishermen, and Boatmen, subscribers to the Society, to replace their clothes, boats, or nets, when lost by storm, or other accidents of the sea.
- 3rd.—To relieve the Widows, Orphans, and Aged Parents of Fishermen, Mariners, Coast-Guardsmen, Pilots, and Boatmen.
- 4th.—To provide Life Boats around the Coasts of the United Kingdom, with paid Crews, Rockets, and other apparatus, for assisting vessels in distress, and rescuing their Crews if wrecked.
- 5th.—To give gold and silver medals, and other honorary or pecuniary rewards, for any praiseworthy endeavours to save life from shipwreck.
- 6th.—To exhibit an improved construction of Fishermens' boats.
- 7th.—To undertake any other objects, designs, or purposes of a benevolent character, for the benefit and welfare of Seamen generally.

The Committee of Management earnestly commend this Noble Institution to the continued patronage of the Public at large, and especially to MERCHANTS, SHIPOWNERS, and all connected with our Mercantile Navy. They also call the attention of MASTER MARINERS, MARINERS, COAST GUARDMEN, FISHERMEN, and BOATMEN generally, to the benefits it has already conferred on *them* and their families, and urge upon the Fishermen and Mariners the necessity of their coming forward, and proving by *their* Annual Subscriptions of HALF-A-CROWN, that whilst they are grateful for the charity of the Public towards them, they are willing to help themselves to the best of their ability, and ensure to themselves and families the *full* benefits of the Society.

The Committee regret that, notwithstanding so many Fishermen, Seamen, and their families have *proved* the blessings of the Society in the time of their greatest need, 4114 persons having been relieved during the past year, and upwards of 29,000 since the formation of the Society in 1839, only 28,000 have as yet enrolled themselves as Members!—they fear that because, with a large and liberal charity, *all* who are Shipwrecked are clothed, if cast *naked* on shore, fed and conveyed to their homes, irrespective of their being Members, that in the spirit of selfishness this is taken advantage of; and therefore think it necessary to warn the Fishermen and Mariners, that if this is found to continue, they shall be obliged to consider the expediency of withholding any aid to Non-members.

SARSAPARILLA.

It is asserted by many eminent medical men that there is no medicine in the Materia Medica comparable to Sarsaparilla for recruiting the debilitated constitution, restoring the tone of the stomach, improving the general state of the system, and, by its continued use, removing various morbid symptoms ascribed to a deranged condition of the fluids, such as eruptions on the skin, ulcerations, scorbutic and cutaneous diseases, and rheumatic pains, operating as a general and complete purifier of the blood. BUTLER'S "COMPOUND CONCENTRATED DECOCTION, OR FLUID EXTRACT OF SARSAPARILLA," is the original of the now numerous preparations of the kind, and is extensively prescribed by Medical Practitioners; it is most carefully prepared from the finest Jamaica Sarsaparilla imported, at a low temperature, so as to preserve entirely the virtues of the root in their most efficient and concentrated form. A pint bottle is equal to four quarts of the ordinary preparation.

Prepared and sold in pint bottles, 20s; half-pints, 10s.; and quarter-pints, 5s. 6d.; by BUTLER & HARDING, CHEMISTS, 4, Cheapside, Corner of St. Paul's, London.

BUTLER'S TASTELESS SEIDLITZ POWDER, IN ONE BOTTLE.

This useful aperient preparation, besides forming an equally efficient and far more agreeable Draught than that produced by the Common Seidlitz Powders, is made in much less time, and with infinitely less trouble. To allay fever or thirst, a teaspoonful in water, forms a most refreshing Saline Draught. Being enclosed in a bottle, it will remain uninjured by humidity during the longest sea voyage or land journey.

Sold at 2s. 6d. the bottle (which is enclosed in a case, and accompanied by a measure and spoon), by the preparers, BUTLER & HARDING, Chemists, 4, Cheapside, Corner of St. Paul's, London.

SIR W. BURNETT'S PATENT
FOR THE PRESERVATION OF TIMBER, CANVAS,
CORDAGE, COTTON, WOOLLEN, &c.

PROSPECTUS.

◆

THE following are some of the peculiarities and advantages of Sir William Burnett's Patent process.

ITS EFFECTS ON WOOD.

It hardens and improves its texture. It enters into permanent chemical combination with the ligneous fibre; and does not come to the surface of the wood by efflorescence, like other crystalline salts; and no amount of washing or boiling in water will remove the chemical compound so formed.

It preserves wood and other articles from the adherence of animal and vegetable parasites, and also from the attacks of insects.

It completely preserves wood from *wet* and *dry* rot.

It renders the wood perfectly unflammable, when used of a certain requisite strength.

ITS EFFECTS ON CANVAS, CORDAGE, COTTON, &c.

The Preparation preserves these articles from mildew and rot. It renders them more pliable; does not in the slightest degree discolour them; and washing or boiling in water will not remove the combination from their fibres.

ITS EFFECTS ON WOOLLEN.

Woollen prepared by this process will be preserved from mildew and rot: it will not be attacked by moths; and washing or boiling will not remove the combination from it.

ITS EFFECTS ON ANIMAL MATTER.

It is used for the preservation of anatomical subjects; and green hides are effectually preserved from decomposition by being subjected to the process.

ITS EFFECTS ON BILGE-WATER.

It completely neutralises the offensive effluvia arising from bilge-water on board ships.

ITS EFFECTS ON METALS.

Iron or other metals are not oxidated or dissolved, either when immersed in the Solution, or embedded in wood prepared in it.

CROGGON'S PATENT ASPHALTE ROOFING FELT

Has been extensively used and pronounced efficient, and particularly applicable for WARM CLIMATES. It is a non-conductor.—It is portable, being packed in rolls, and not liable to damage in carriage.—It effects a saving of half the timber usually required.—It can be easily applied by any unpractised person.—From its lightness, weighing only about 42 lbs. to the square of 100 feet, the cost of carriage is small.—It is a most efficient protective material for plants, instead of Russia mats.

INODOROUS FELT,

For Damp Walls, and for Damp Floors under carpets and floor cloths.

PRICE ONE PENNY PER SQUARE FOOT.

DRY HAIR FELT,

For Deadening Sound; and Covering Steam Boilers, Pipes, &c., preventing the Radiation of Heat, thereby saving TWENTY-FIVE PER CENT. OF FUEL.

Samples, testimonials, and full instructions, on application.

PATENT ASPHALTIC MINERAL PAINT, FOR OUTSIDE WORK OF RICH BLACK AND BROWN COLOURS, READY FOR USE.

This Paint, from its adhesive and preservative properties, combined with its beauty, durability, and lowness of price, will be found of peculiar advantage for painting out-buildings, iron-work, boats, ships, &c.

Price 2s. per Gallon (including package) in quantities of 5, 10, and 25 Gallons.—In smaller quantities, 6d. per gallon extra.

DIRECTIONS FOR USE.—Stir the Paint well up, and should it be found too thick, add sufficient boiled Linseed Oil, to bring it to a proper consistence; then apply it with a brush, same as ordinary paint, brushing well and putting it on as light as possible, so as to cause it to dry quickly.

To produce a brilliant varnish-like appearance, a second or third coat may be necessary, as it is deeply absorbed by timber.

CROGGON'S PATENT FELTED SHEATHING, FOR COVERING SHIPS' BOTTOMS, &c.,

After many Years' experience, has been proved to preserve the timbers and caulking of Vessels, and to prevent the Ravages of the Worm in any Climate. It is confidently submitted to

SHIPOWNERS AND COMMANDERS,

As an Article over which the Copper will lie perfectly smooth.

It is made in Sheets, 32 in. by 20 in., price 4d. And in Long Lengths, to Order.
